MAINSTREAM Instructional Intervention

Dear Parents/Guardians,

Congratulations!!!

We are excited to inform you about an upcoming opportunity for your child to participate in the Mainstream Instructional Intervention after-school program. The program will be offered every **Tuesday and Thursday** for 20 weeks and we are working diligently to ensure a great experience for all participating students. Please note that student participation is an essential component for an impactful experience. Additionally, the program ends daily for students at and on time pick up is expected. Any student that is not picked up on time after two occurrences unfortunately will lose their place in the program.

The Mainstream after-school program offers engaging learning activities for all participating students. At the forefront of our work is the provision of the Skillset Academic Support which maximizes student growth through effective instruction while utilizing small group personalized academic models in reading and mathematics. This learning experience for students is further grounded in the use of academic standards and a designed curriculum.

We are so excited and looking forward to working with students!

The MAINSTREAM extended learning after-school program will begin in November and end in March. A calendar outlining actual dates is forthcoming.
