

Call for Enrichment Providers

Arcola Elementary is pleased to announce our continuing partnership with [6crickets](#) to manage and support after-school enrichment programs for Spring 2023 and Fall 2023. The goal of the program is to bring the best, most-engaging enrichment programs to Arcola students to develop the whole child and help them explore their interests, discover their passions, love learning, and build social-emotional support through interest-driven, project-driven teamwork. Our enrichment programs will teach STEM, chess, performing arts, sports, and more.

The approach we take is *community enrichment* where we partner with quality enrichment providers and community partners to teach the programs on school campuses. We firmly believe that this approach fosters a win-win-win-win community: win for our students to access the best enrichment, win for our families to have the best out-of-school time support, win for our community partners and small businesses to impact more children, and win for Arcola Elementary to have an efficient, high quality enrichment operation.

We are soliciting applications from passionate enrichment organizations, businesses, community partners, and individuals who love creative teaching and have a proven track record of teaching engaging enrichment programs. Arcola elementary is K-5, the programs are family-paid.

[Apply](#)

We look forward to receiving your applications and partnering to bring the best enrichment to Arcola students. If you have any questions, please email support@6crickets.com. Thank you!

About Arcola:

Arcola Elementary School serves approximately 850 students in grade levels K-5. The Arcola Elementary School PTA is a group of parents/guardians, staff, and community members dedicated to supporting our students. Providing student access to quality, engaging instruction in the areas of STEM, the Arts, athletics and critical thinking is one focus of our mission for community engagement.

About 6crickets: The mission of 6crickets is to bring the best enrichment to every student in every school. We empower districts and schools to organize community partners to teach after-school and summer enrichment programs directly on school campuses. Core to the 6crickets' solutions is the one-stop cloud platform that seamlessly interconnects districts, schools, providers, and families. This way, we can significantly automate and streamline the management. 6crickets is backed by the National Science Foundation and has served 3.3 million enrichment learning hours taught by thousands of providers at 588 schools in 122 districts in 29 states.
