

## Section IIIB

### 8. Supporting Immigration Reform

Out of many, we are one. That bedrock American idea has animated our country from its earliest days, inspiring people from every corner of the earth to participate in our great democratic experiment. The Trump Administration has repudiated that idea and abandoned our values as a diverse, compassionate, and welcoming country. Instead of pursuing a sensible, humane, and responsible approach to immigration that strengthens the United States, the Trump Administration has been callous, cruel, and reckless in the extreme. President Trump's immigration policies have made our communities less safe, undermined our economy, and tarnished our image around the world.

This Administration's cruelty and dehumanization of immigrants stretches the imagination and shocks the conscience: forcibly separating families and putting children in cages; deporting veterans who have fought to defend our freedoms; conducting militarized raids on our workplaces; endangering lives by denying COVID-19 testing and treatment based on immigration status, including to essential workers at the forefront of the pandemic response; banning people from traveling to the United States based on their faith or their country of origin; and turning away refugees and asylum seekers fleeing violence and persecution.

Democrats believe America can do better. Indeed, we must. The truth is that our immigration system was broken long before President Trump came into office, and his departure alone won't fix it. Immigrants are essential to our society and our economy. Immigrants are part of our families. They enrich our culture. They grow our food, care for our loved ones, serve in our armed forces, and provide critical health care services. Immigrants make America stronger. Not only do immigrants support us—immigrants are us. Our families and our communities, our congregations and our schools, our businesses large and small have been built and sustained through the inclusion of immigrants. That's why Democrats commit to building a 21st century immigration system that reflects our values, repairs past harms, heals our communities, rebuilds our economy, and renews our global leadership.

We support starting by righting the wrongs of the Trump Administration and rescinding President Trump's fabricated "National Emergency," which siphons funding away from our men and women in uniform to construct an unnecessary, wasteful, and ineffective wall on the southern border.

We support immediately terminate the Trump Administration's discriminatory travel and immigration bans that disproportionately impact Muslim and African people and invite those whose visas have been denied under these xenophobic and un-American policies to re-apply to come to the United States.

We support reinstating, expand, and streamline protections for Dreamers and the parents of American citizen children to keep families together in the communities they have long called home.

Democrats believe the United States should be a beacon of hope for those who are suffering violence and injustice, which is why we will protect and expand the existing asylum system and other humanitarian protections. We support reversing the Trump Administration policies that prevent victims of gang and domestic violence, as well as LGBTQ+ people who are unsafe in their home countries, from being eligible to apply for asylum.

Democrats will end Trump Administration policies that deny protected entry to asylum seekers, put them at great risk, and destabilize our neighbors and the broader region. And we will end prosecution of asylum seekers at the border and policies that force them to apply from “safe third countries,” which are far from safe.

We believe that our fight to end systemic and structural racism in our country extends to our immigration system, including the policies at our borders and ports of entry, detention centers, and within immigration law enforcement agencies and their policies and operations. And Democrats will immediately halt enforcement of and rescind the Trump Administration’s un-American immigrant wealth test.

Even as we work to reverse the enormous damage caused by the Trump Administration, we are determined to build a 21st century immigration system that embodies our values, expands economic opportunity for all Americans, and enhances our global competitiveness.

We believe it is long past time to provide a roadmap to citizenship for the millions of undocumented workers, caregivers, students, and children who are an essential part of our economy and of the fabric of our nation. We want this process fast-tracked for those workers who have been essential to the pandemic response and recovery efforts, including health care workers, farmworkers, and others. We also support eliminating unfair barriers to naturalization, reduce application backlogs, and make our immigration processes faster, more efficient, and less costly. These reforms will strengthen our communities, our families, and our country.

We believe family unity should be a guiding principle for our immigration policy. We support prioritizing family reunification for children still separated from their families, and restoring family reunification programs ended by the Trump Administration. We support legislation to treat the spouses and children of green card holders as immediate relatives and end their unfair separation. We support eliminating family-based green card backlogs and reform the system to immigration barriers, such as the three- and 10-year bars and remove the 10-year waiting period for waivers to the permanent bars that keep loved ones apart.

We know that when employers feel free to abuse and bully immigrant workers, all workers suffer. That’s why we support holding employers accountable, promote workers’ rights, and

prioritize the enforcement of labor and employment laws across the economy, including discrimination and sexual harassment protections, wage and hour laws, and health and safety.

We support ensuring that enforcement mechanisms are humane and consistent with our values and international humanitarian obligations. That's why we will end workplace and community raids. We want to protect sensitive locations like our schools, houses of worship, health care facilities, benefits offices, and DMVs from immigration enforcement actions. We will prohibit enforcement actions that deter access to justice at courthouses, end programs that force state and local law enforcement to also be responsible for immigration enforcement and stop targeting men and women who served in uniform and their families.

We believe detention should be a last resort, not the default. Democrats will prioritize investments in more effective and cost-efficient community-based alternatives to detention. We support ending for-profit detention centers and ensure that any facility where migrants are being detained is held to the highest standards of care and guarantees their safety and dignity. Detention of children should be restricted to the shortest possible time, with their access to education and proper care ensured.

We support implementing robust mechanisms for oversight, accountability, and transparency to ensure immigration agencies abide by our values, the U.S. Constitution, and international law.

We support policies and programs to make it easier for qualified immigrants and their families to become full and equal citizens, including increasing funding for culturally appropriate immigrant inclusion and citizenship services, legal support, English classes and bilingual education, workforce development, and adult education.
