

Treasures Of Troy Slot

Troy's treasure slot game is based on characters and events in Greek mythology. As the name of the game suggests, the setting of this action is the mythical Greek city of Troy, which is also a real archaeological site. According to legend, during the Trojan War around 1200 B.C., Troy was surrounded for 10 years. The symbols that you'll see in the game of Troy's Treasure Slots are Helen of Troy, who is said to have triggered the Trojan War, Menelaus of her husband Sparta, and Achilles, who was one of the heroes of the war.

How to play Troy's Treasure Slots

Troy's Treasure is a very simple game. Even if you've only played a fixed payline slot, not in the 'how to win' format, it may take some time to get used to it. If you have experience playing online slot games, the layout will look very familiar. The only notable thing is that the reel follows a bumper 5x4 format rather than a 5x3, and the game features a multi-way extra reel. This means that by default, all symbols are their own reels, and the same symbol can appear multiple times in a column. [슬롯](#)

Symbols used in Troy's Treasure Slots

The symbols used in Troy's treasure slot games are a mix of related symbols with theme characters that pay more, including the traditional play cards J, Q, K, and A, and Troy's treasure logo, which serves as the game's wild role. This could be especially valuable in a game with 1,024 winning methods,
