Summary

I know, I know. I can't believe it's not butter, either!

Let's finance your client's next big move.

This is the perfect financing option for coaches with high ticket offers where the client can't afford the total cost upfront.

The coach can have 30% to 80% advanced to them upfront. Financing at 30% doesn't involve a credit poll and is the most streamlined option requiring the least amount of work from all parties.

The client has to prove that they can make the monthly payments.

Financing over 40% up to 80% requires a bit more paperwork and a credit poll depending on the percentage that they want to be financed.

This is intended for coaches making at least \$50k a month in sales that have clients that they're rejecting due to financing issues.

And it's NOT intended for the clients that can afford everything upfront!

Payouts

Payouts for the coaches are weekly. Every Monday.

The coach does an 80/20 split with the lender on the note and the interest.

There are tiers based on the percentage being financed; tier 5 is at 30% financing, the is the fastest, most streamlined option.

Tier 1 is up to 80% financing and requires the most paperwork, similar to a traditional loan.

Example of The Numbers

Let's say one of your coaches does a total of \$100,000 in financing a month. [OBJ]

In the coaching industry, a good coach is easily doing \$50,000 - \$100,000 in coaching.

When you now add in financing to their business, it 2-10x's.

So one coaching currently doing \$50,000 a month in high ticket sales without financing will easily scale their business within months to \$100-\$200k a month.
