

Structured Abstract

Submission by 01.03.2024 to dragos.bartos@muri.utcluj.ro

but we prefer via **EasyChair Platform** (see the website of the conference for links)

Paper type	<i>Scientific Paper / Practitioner's Paper / Poster</i>
Author(s)	<i>Authors' names, affiliations, and e-mail addresses</i>
Title	<i>A compact, self-explanatory title would serve the best.</i>
E-mail address of the corresponding author	<i>This address will be used during submission processing and publication preparation</i>
Keywords	<i>Declare at least 5 and no more than 8 keywords characterizing your work</i>
Background or Purpose	<i>Describe the motivation or objectives of your work</i>
Design / methodology / approach	<i>How are the objectives achieved? What methods or approaches are used?</i>
Findings / Results	<i>What was found (or is expected to be found) in the course of your work?</i>
Research limitations / implications (if applicable)	<i>Describe identified limitations and proposed continuation of the research process; this section is mandatory for the research papers</i>
Practical implications (if applicable)	<i>What are the expected technical and business implications of your work?</i>
Social implications (if applicable)	<i>What is the expected influence of your work on people's attitudes and relations?</i>
Originality / value / conclusions	<i>What is new in your work? Who and how could benefit from it?</i>

Dear Authors, if the Program Committee assesses your work to fit Scientific Paper requirements and you declared submission of Practitioner's Paper or Poster, the Program Committee will contact you and ask for to change the work type. The same procedure will be applied when the Program Committee decides to change your work type to Practitioner's Paper or Poster.

Scientific and selected practitioner's peer-reviewed papers will be published in the Conference Proceedings: *AI-Powered Innovation and Inventive Design* as a part of the *IFIP Advances in Information and Communication Technology* Springer book series.
