Privacy Policy for TranscriptMaster

Last updated: October 15, 2026

TranscriptMaster ("we," "our," or "us") operates the **TranscriptMaster** mobile application (the "App"). This page informs you of our policies regarding the collection, use, and disclosure of personal information when you use our App.

By using TranscriptMaster, you agree to the collection and use of information in accordance with this Privacy Policy.

1. Information Collection and Storage

We prioritize user privacy and adhere to data minimization principles.

- **Personal Identifiable Information (PII):** We do not collect, request, or store personal identifiers such as your name, email address, phone number, physical address, or contact list.
- **Processed Video Queries:** When you input a YouTube URL or Video ID to generate subtitles/transcripts, the identifier is processed solely to retrieve publicly available metadata and caption tracks. We do not maintain a permanent database of your processed URLs or extracted transcripts.
- **Client-Side Processing:** All transcript parsing and formatting are executed locally on your mobile device.

2. Device Permissions

The App requests only standard permissions strictly required for basic functionality:

- **INTERNET (`android.permission.INTERNET`):** Required to fetch public video details, caption files, and serve advertisements.
- **ACCESS_NETWORK_STATE (`android.permission.ACCESS_NETWORK_STATE`):** Used to check active network connectivity before dispatching network calls.

TranscriptMaster does **not** request access to your device's camera, microphone, internal files/storage, location, or contacts.

3. Third-Party Services and Advertising

To provide our service free of charge, the App integrates third-party software development kits (SDKs) for analytics and advertising. These third parties may collect pseudonymous device identifiers (such as Android Advertising ID, IP address, device model, and OS version) in accordance with their respective privacy policies:

- **Google Play Services:** https://policies.google.com/privacy

- **Google AdMob:** https://support.google.com/admob/answer/6128543

4. YouTube Terms of Service and API Compliance

TranscriptMaster accesses public YouTube video metadata and publicly available closed captions. By using this App, you acknowledge and agree to be bound by the **YouTube Terms of Service** ([suspicious link removed]) and Google's Privacy Policy.

- TranscriptMaster is an independent utility and is **not affiliated with, authorized, maintained, sponsored, or endorsed by YouTube or Google LLC**.
- The App does not facilitate unauthorized downloading of copyright-protected video or audio streams.

5. Data Security

We implement commercially reasonable security practices. Because we do not operate user accounts or store user data on remote databases, the risk of data compromise on our servers is non-existent. However, no method of transmission over the internet or electronic storage is completely secure.

6. Children's Privacy

The App is not directed to children under the age of 13. We do not knowingly collect personal identifiable information from children. If you become aware that a child has provided us with personal information, please notify us immediately so that we can take corrective action.

7. Changes to This Privacy Policy

We may update our Privacy Policy periodically. We will notify you of any modifications by posting the updated policy on this page with a revised "Last updated" date. You are advised to review this Privacy Policy periodically for any changes.

8. Contact Us

If you have questions, feedback, or concerns regarding this Privacy Policy, please contact us:
