

Fear of not having

A lot of people are right now stuck in the system and don't know how to get out. That's why I created GLITCHES. Glitches is the community that everybody can join. Inside we teach different methods how to escape the slave mind and how to become the best version of yourself as you can be, but right now let's focus on the "FEAR OF NOT HAVING IT."

A fear of not having it is actually just a thinking of humans that was created from the matrix so people can't escape it. People that are successful all escaped that thinking, because you can't actually win if you think you are incapable of winning and only capable of losing and not succeeding.

Let's be honest. Right now you are still a slave with a matrix mind who is just living a normal life working a 9-5 job and not a successful man or a woman who could really be proud of. Or maybe you are a teen who is just enjoying life right now partying and not really focusing on himself. Right now you are thinking that all of this is ok, but in reality it's not.

You need to realize that being a slave doesn't have as fun a path as you think it does. Being a slave will lead you to work a mcdonalds. You'll be slaving around for 7 bucks an hour and will see people with lambos and ferraris walking in and ordering some food. At that moment you will think to yourself how can people afford a 5 million dollar car, however on the other side your whole house car and everything you own is worth around 300k dollars.

Right now my friend I want you to take a 15 second break from everything and just focus on your current status compared to your dream status. When you are done I want you to say to yourself "I AM CAPABLE OF EVERYTHING" and actually mean that.

So my friend I'm not going to explain all of the things about slave minds and matrix, cause then you will be reading this till tomorrow. In glitches we have everything explained in a fun way, so I hope to see you inside. It doesn't cost anything to join and it really teaches you things you need in life so my friend the choice is on you.
