

<http://www.diditangroup.com/>

Our Investment IQ stems from decades of experience and innovative thinking that bypasses the traditional “loan in a box” model. Discover the Diditan difference, and explore how our leading-edge approach to real estate investment solidifies a high-return revolutionizing the way people manage and incur their wealth. View our special offer here.

Diditan Group is a licensed general contractor in the state of California.

Develop / Invest

A high-return investment in real estate development depends on three primary factors: an in-depth understanding of the market, smart land acquisition, and a premium quality build that places the structure in a class of its own.

We Know the Market – The perfect glass of wine is dependent on various notes that harmonize together under the development of a master vintner. The perfect real estate development investment requires the same formula. Diditan consists of hand-selected experts from their specific industries that collaborate under one canopy to offer a well-balanced, advanced knowledge-base that synthesize beautifully to offer the best real estate investment opportunities in Los Angeles.

Land Purchase – Our Diditan team pools their knowledge to locate the best build sites for residential and multi-unit properties. Being able to forecast market value, negotiating the sale, and knowing how to leverage your portfolio to get the best land deals in LA is key to a high-return investment.

Build and Design – Frank Gehry once declared that architecture should speak of its time and place, but yearn for timelessness. This is our dream; to re-create that villa you rented in the hills above Florence, but with those added personal touches that somehow transcend form.

We conceptualize your yearning for a living space not yet of this world, and create homes and multi-units attesting to the avant-garde of modernism. Because true timelessness in construction is achieved by uniting vitality, art, and the emotional response it garners from its beholders.

Diditan Group also builds custom hybrid homes of mixed architectural genres. And to truly remain timeless, we receive your dream and translate it into a habitat that boasts your legacy, while securing your high-return investment. [View our special offer here.](#)
