Mission For The Class

The goal in seventh grade is to become responsible and respectful young adults. This goal is achieved by focusing on three key points. The first point is our religious faith. Without our faith in God we have nothing. We try to live our lives with Christ as our model. The second point is our pursuit of knowledge. This is attained by doing the best we can in school and at home preparing for the next day. The third point is our socialization with others; how do we interact and treat people every day. This includes classmates, students, teachers and staff members, as well as our parents, aunts, uncles, grandparents and siblings.

This goal is a constant and never ending task, for both students as well as for the adults in their lives. However, if we all work together to achieve this goal, we will be very proud of these young men and women.
