

Mission Statement

At Davisville Junior Public School, we strive to create an inclusive space of belonging for all identities and lived experiences for students, staff, families, and communities. We are committed to implementing practices at our school to combat bias, racism, and oppression in order to create a bias free and inclusive space that promotes a sense of belonging in all stakeholders and ensures that everyone's human rights are protected. We will ensure a range of programming that reflects the voices, choices, abilities, identities and experiences of students and families. We will continually review school policies, procedures, and practices to ensure that they promote equity and inclusion and are committed to creating an equitable school where the achievement and well-being of every student is fostered through rich, culturally relevant learning experiences in inclusive environments where all voices are valued and heard, and where all students feel a sense of mattering and belonging. We are committed to building strong partnerships among students, staff, families, and communities in order to support the achievement and well-being of all students and ensure that all students reach their full potential. High academic, social, and moral standards will be encouraged and expected of all students. Every Davisville student is valued, respected, and has opportunities to succeed and become a responsible, contributing member of our global society.
