

## Commission List 2018-2019

**NOTE-** I am a slow drawer and is not ready for a deadline so, please try and be patient with me. And I only take paypal (pay me when the art is finished). Also, anyone that is in my current list, the updated prices will not affect them.

### Current Art Skill- Intermediate

## Things I draw:

1. **Traditional Drawing-** I draw on a traditional paper and pencil. I can draw mostly anything (aside from adult scenes).
  - Fast to mediate sketches are at least about \$4.00-\$5.00 USD
2. **Digital Drawing-** I draw with a tablet and use Paint Tool Sai (both Ver. 1 and 2) and sometimes (though rarely,) on other art software to make things look better.
  - Sketches will be at least \$5.00-\$7.00 USD
3. **(Special- 1) Aeromorphs-** Drawing aeromorphs, I draw them only SFW wise. Just tell me what kind of aircraft you want me to aeromorphize, and I'll see what I can do.
  - As for price, depending on the complexity and design of the craft it will be added to either the traditional or digital (So it'll be like this- You ask for a Traditional drawing and want to have an aeromorph of a [Insert Aircraft here]; it'll be \$10.00 + the complexity of the aeromorph (and adds more if optional to the options in the image to the number, it will range from \$15.00 to \$20.00, but to be safe, I'll negotiate for a safer price. **Be advised, I'm going to try to combine both digital/traditional drawing with the aeromorph**).
  - So far I can draw some generic aircrafts in the real world and some sci-fi air/space crafts that I know so far or that I want to try:
    - Ace Combat (or strangereal related) series
    - Star Wars (Want to Try) series [Legends or Canon]
    - <sup>1</sup>Star Fox

---

<sup>1</sup> Example- <https://www.furaffinity.net/view/25671572/>

4. **(Special- 2) <sup>2</sup>Geth [PROTOTYPE]**- Okay, now this is something I want to try out a bit, and it kinda got me into Mass Effect. I did some commissions about this (plus a tribute to a fan story), and thought I want to expand on this (It's gonna be the same like the aeromorph purchase, but will be around \$20.00 (Normal Geth) to \$25.00 (Custom or Uplifted), again, we'll discuss about the price). So here's how this is going to work:
- **Basic Geth-** Just a basic Geth platform just with different colors and their own subtypes (see link in the footnote). Weapon a Geth use is limited.
  - **Custom Geth (PROTOTYPE)-** Unlike the Geth platform and subtype(?), the Custom Geth's platform can be modified to how you want it to be: armor, color, design, and/or weapon use.

---

<sup>2</sup> For those who don't know what a Geth is- <http://masseffect.wikia.com/wiki/Geth>

**Other Kind of Art I Do Not listed on the commission prices:**

**Head Emotions-** I sometimes (or rarely) draw head sketches. For only just \$5.00 (in both digital and traditional) I can draw about five or six emotion heads. Any additional emotion head(s), it's gonna be an extra \$1.00-\$2.00 USD. However, for telegram stickers, you might have to ask another artist for that. My apologies.

- Examples:
  - Digital- <https://www.furaffinity.net/view/22656599/>
  - Traditional- <https://www.furaffinity.net/view/22625752/>

**Transformation Artwork-** As a transformation fanatic, I always want to try drawing TF art (<sup>3</sup> **SFW only!**) ranging from animals, fantasy, pokemon, and/or digimon. And yes, I also do aeromorph TFs too. I can do try and do also pool toy/inflatable or rubber (**Again SFW only!**) TF. Depending on the complexity and if you choose either traditional or digital, we will need to discuss the price of this TF.

- Examples
  - Aeromorph TF single- <https://www.furaffinity.net/view/24582415/>
  - Group TF- <https://www.furaffinity.net/view/25104128/> (Extra people or parts will be probably \$5.00 per for both.)

---

<sup>3</sup> However, I do have an alternate account for a certain TF that tickles my dark fantasy in FA, see my main FA page, Valkyr1a to find a link.
