

Chapter # Assignment/Activity Type

Add Assignment Name Here

ACTIVITY DESCRIPTION/PURPOSE/OVERVIEW:

For this assignment, students will conduct research online about programs/apps and computers needed while studying for their future careers and while in their career field.

The purpose of this assignment is to apply what you have learned about computer hardware and software to a practical application for your personal/professional life.

INSTRUCTIONS/TASK:

Conduct Research

Decide on your future career and do some research on programs and apps that you might use in your degree program and your future career. Then research computers with sufficient hardware specifications to adequately support you through the degree program and your future career.

Create Paper

In your online submission box or in a document,

1. Create a header section with the following information:

- ☐ Name, instructor name, course name and section, and current date, left align
- ☐ Add a title to your paper and center-aligned

Sample

Hope B. Good

Dr. Instructor Name

CIS 110 - ##XX (section number 01IN)

15 August 2019

Title of Paper: Technology in Your Career/Major Title

2. Then provide the following information in a paragraph and list format.

- ☐ describe your future career
- ☐ provide a list of at least 3 programs and/or apps you will use in your career or for school, stating what they do and how they are used.

Chapter # Assignment/Activity Type

Add Assignment Name Here

- provide a link to 3 computers you could use at either school or for your future career with the following information
 - i. Type of Processor
 - ii. Amount of RAM
 - iii. Amount of Storage
 - iv. Size of Monitor
 - v. What peripheral devices do you add and why.
 - Choose one computer and why this computer will best meet your needs.
 - Provide a link for all three and images.
3. Write up should be at least 250 words.
4. Cite your sources by linking to any additional websites used to develop content.

Things to Consider

1. You are not expected to be an expert on the topic, but knowledge should reflect the content presented in the textbook and additional research.
2. Do not copy and paste any portion from a website, as that is considered plagiarism.
3. Make sure to address each question in your response.

CRITERIA FOR GRADING/RUBRIC

Grading is based on the rubric in Moodle and is manually graded by the instructor in Moodle within **one** week after the due date.

General and specific instructor feedback is provided via the rubric and is viewable through the assignment link in Moodle. Additional questions about grades or feedback can be sent to the instructor of record.

TIME TO COMPLETE:

The estimated completion time is 2 hours, depending on career path and skill level.

SUBMISSION METHOD

To successfully complete this assignment, you must answer the questions provided in the activity within the required word count and submit via the online submission link in Moodle.
