Privacy Policy for the Balance Analytics App

1. Introduction The developer ("we", "us", "our") respects the privacy of its users ("you", "user"). This Privacy Policy explains how we collect, use, and protect your information when you use the Balance Analytics mobile application (hereinafter the "App").

2. What Data We Collect and Why The App is designed with a maximum emphasis on privacy. We collect and use data solely to ensure the functionality of the stated features:

- **Bluetooth and Location Permissions:** The Android system requires location access permissions (ACCESS_FINE_LOCATION, ACCESS_COARSE_LOCATION) strictly for scanning and connecting to external Bluetooth headsets (neurointerfaces). We **do not track** your physical location and do not transmit this data to our servers.
- **Neurointerface Data (Focus and Relax Metrics):** Data received from the headset is processed locally on your device in real-time.
- **Device Identifier (Device ID):** This may be used exclusively locally to generate a license key for the PRO version. This data is not transmitted over the internet.

3. Data Storage All information, including app settings and session history, is stored **exclusively locally** on your mobile device (within the App's secure directory). We do not have servers to collect, store, or analyze your personal data.

4. Data Sharing with Third Parties We do not sell, trade, or transfer your personal data to third parties. The App includes a feature to copy session analytics for transfer to third-party neural networks (such as Gemini, ChatGPT, etc.). This action is performed by the user **strictly voluntarily and manually** via the system clipboard. We are not responsible for the privacy policies of any third-party services you choose to use for analyzing this data.

5. Children's Privacy The App is not intended for use by children under the age of 13. We do not knowingly collect personal information from children under 13. If you are a parent or guardian and are aware that your child has provided us with personal data, please contact us.

6. Changes to This Privacy Policy We may update our Privacy Policy from time to time. We recommend that you review this page periodically for any changes.

7. Contact Us If you have any questions or suggestions regarding our Privacy Policy, please contact us at: Dmitry.voedilov@gmail.com
