1. Review

Power blog allows you to attract more users on site and convert them from readers to subscribers and clients.

It will fit any design thanks to the Fine-tuning of the look. A clear structure of the categories and sections, a tag cloud and blog search will make navigation intuitive.

Auto-generated SEO data saves you time for writing interesting articles!

1.1 Support

The add-on was developed by Cart-Power, a CS-Cart official partner and developer. If you need any assistance in installing and configuring the add-on or need it's modification, please contact us through the [helpdesk](#) customer support system.

1.2 Compatibility

The add-on is compatible with CS-Cart and Multi-Vendor version 4.10.x - 4.11.x

For CS-Cart version 4.0.x - 4.9.x please use [Power Blog v1.0](#).

1.3 Buy Now

The official add-on page:

<https://store.cart-power.com/cs-cart-power-blog-add-on.html>

2. Installation

To simplify the installation, configuration and upgrade of our add-ons, we have developed a special service add-on - Cart-Power Add-ons Manager. [Download the Cart-Power: Add-ons Manager](#) and follow the [installation instructions](#).

Once you install it, you will be able to:

1. [Check the List of the Add-ons Purchased for Your Domain](#)
2. [Install Add-ons](#)
3. [Turn on/off Add-ons](#)
4. [Find the Add-on Docs](#)
5. [Set up Add-ons](#)
6. [Upgrade Add-ons](#)
 - a. [Via Add-on Manager](#)
 - b. [Via the Upgrade Center](#)
 - c. [Manual Upgrade \(Add-on Reinstallation\)](#)
7. [Find out Add-on Version Information](#)
8. [Check the Status of the Upgrade Subscription](#)

If you have any issues installing or activating the add-on, please contact us: sales@cart-power.com

3. Add-on Settings

To change main add-on settings, navigate to **Add-ons > Manage add-ons > Cart-Power: Power Blog**.

Besides the addition you should configure the layouts of the blog pages. Learn more about configuring layouts [here](#).

What is Lorem Ipsum?

Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged. It was popularised in the 1960s with the release of Letraset sheets containing Lorem Ipsum passages, and more recently with desktop publishing software like Aldus PageMaker including versions of Lorem Ipsum.

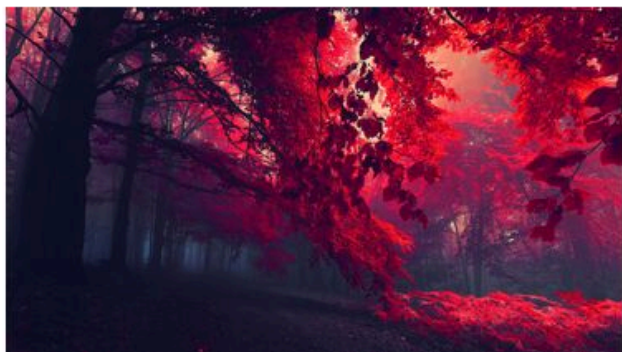

WHY DO WE USE IT?

It is a long established fact that a reader will be distracted by the readable content of a page when looking at its layout. The point of using Lorem Ipsum is that it has a more-or-less normal distribution of letters, as opposed to using 'Content here, content here', making it look like readable English. Many desktop publishing packages and web page editors now use Lorem Ipsum as their default model text, and a search for 'lorem ipsum' will uncover many web sites still in their infancy. Various versions have evolved over the years, sometimes by accident, sometimes on purpose (injected humour and the like).

It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged. It was popularised in the 1960s with the release of Letraset sheets containing Lorem Ipsum passages, and more recently with desktop publishing software like Aldus PageMaker including versions of Lorem Ipsum.

WHY DO WE USE IT?

It is a long established fact that a reader will be distracted by the readable content of a page when looking at its layout. The point of using Lorem Ipsum is that it has a more-or-less normal distribution of letters, as opposed to using 'Content here, content here', making it look like readable English. Many desktop publishing packages and web page editors now use Lorem Ipsum as their default model text, and a search for 'lorem ipsum' will uncover many web sites still in their infancy. Various versions have evolved over the years, sometimes by accident, sometimes on purpose (injected humour and the like).

WHERE DOES IT COME FROM?

Contrary to popular belief, Lorem Ipsum is not simply random text. It has roots in a piece of classical Latin literature from 45 BC, making it over 2000 years old. Richard McClintock, a Latin professor at Hampden-Sydney College in Virginia, looked up one of the more obscure Latin words, consectetur, from a Lorem Ipsum passage, and going through the cites of the word in classical literature, discovered the undoubtable source. Lorem Ipsum comes from sections 1.10.32 and 1.10.33 of "de Finibus Bonorum et Malorum" (The Extremes of Good and Evil) by Cicero, written in 45 BC. This book is a treatise on the theory of ethics, very popular during the Renaissance. The first line of Lorem Ipsum, "Lorem ipsum dolor sit amet..", comes from a line in section 1.10.32.

The standard chunk of Lorem Ipsum used since the 1500s is reproduced below for those interested. Sections 1.10.32 and 1.10.33 from "de Finibus Bonorum et Malorum" by Cicero are also reproduced in their exact original form, accompanied by English versions from the 1914 translation by H. Rackham.

4. Blog Display Configuration

After you've configured main add-on settings, you need to configure special layouts **CP. Blog - Category** and **CP. Blog - Article** in the layouts editor (**Design > Layouts**).

Starting with version 2.3, layouts are created automatically on installing the add-on. Before applying any changes, please, create backups of the database (**Administration > Backup/Restore**) and the current layout (**Design > Layouts > Export layout**).

Add blocks to layout pages **CP. Blog - Category** and **CP. Blog - Article**:

1. Press “+” and select **Add section**.
2. Press “+” and select **Add block > Create new block**.
3. Select one of blocks named *CP::Blog** (*Blog archive block*, *Blog Articles list*, *Blog Categories*, *Blog Search block*, *Blog Subscription*, *Blog tags*).
4. Name block and configure content.

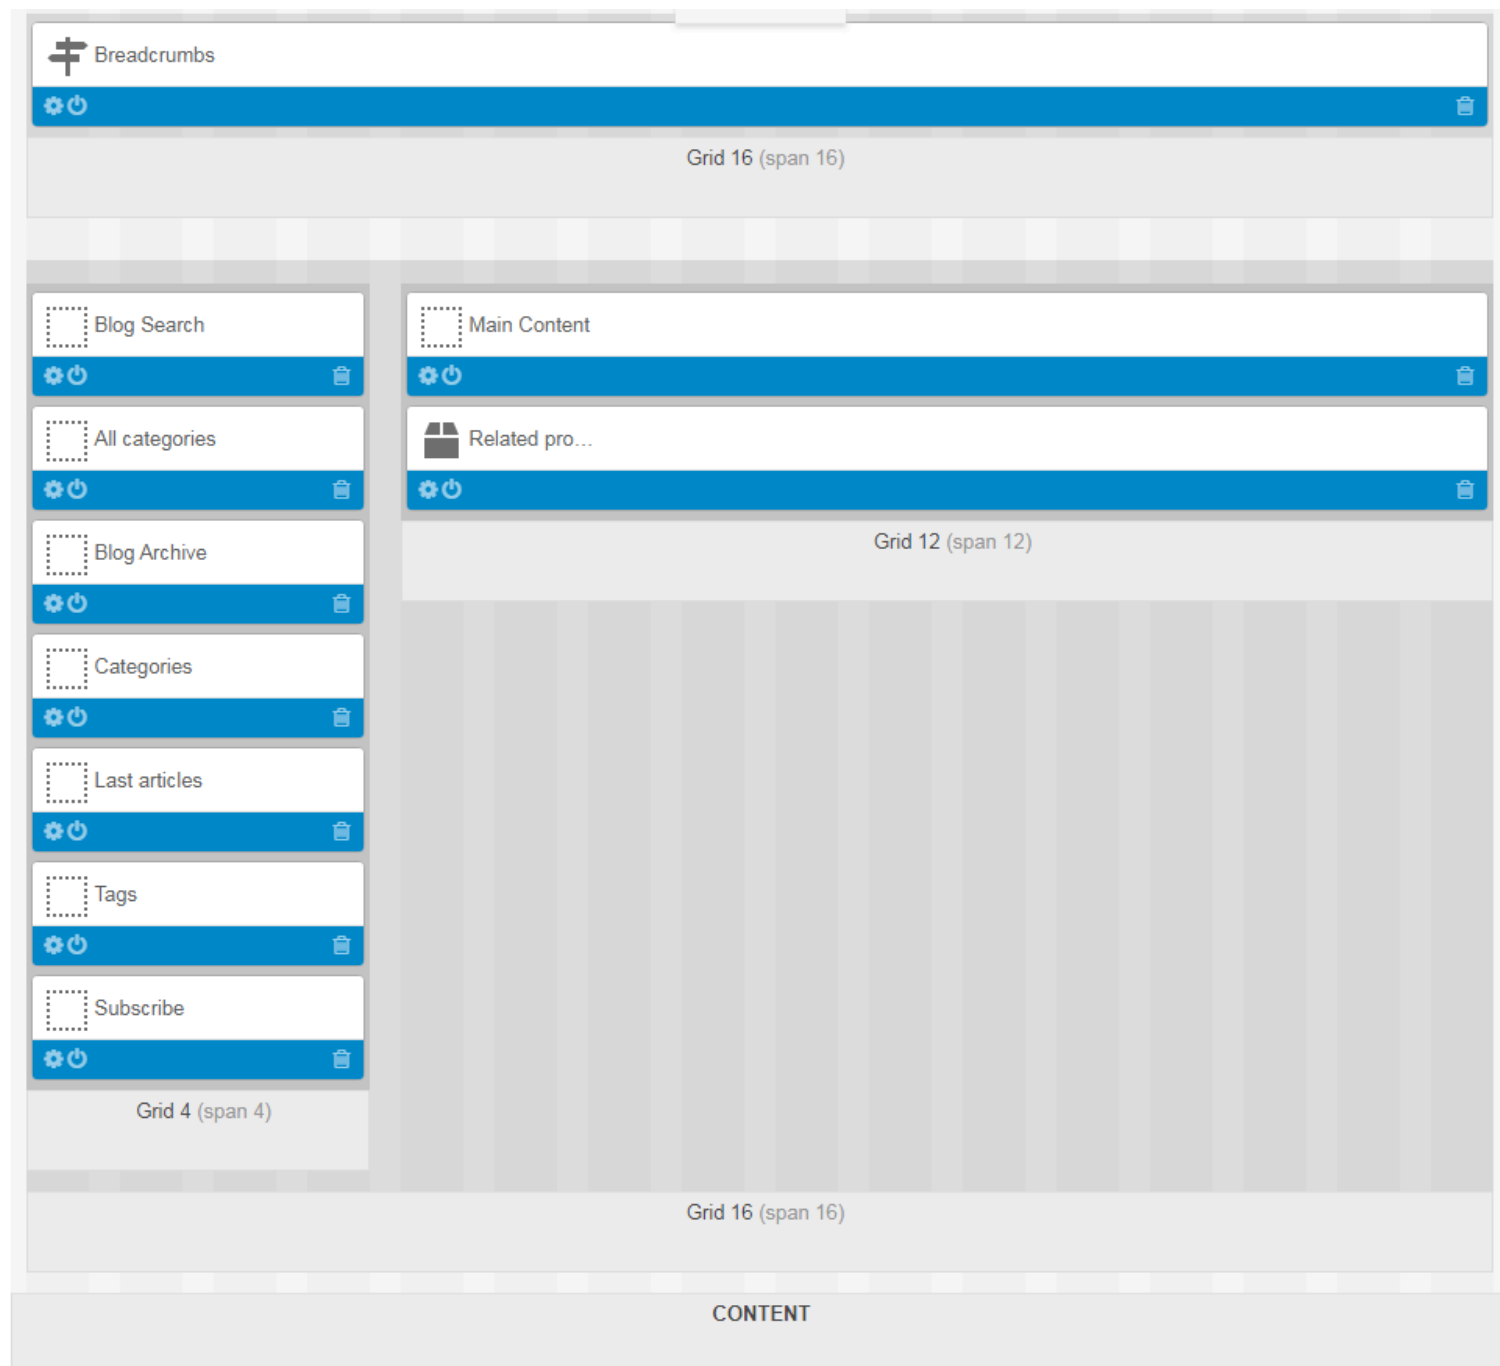

5. Repeat steps 2-3 for every needed block.
6. Add default block **Main content**, required to display it.

4.1 Blocks settings examples:

- Blog category page

The screenshot displays a CMS interface for editing a page layout. At the top, a 'Breadcrumbs' block is shown. Below it is a large 'Grid 16 (span 16)' container. The main content area is divided into two columns. The left column contains three blocks: 'Main Content', 'Last articles', and 'Related pro...'. The right column contains six blocks: 'Blog Search', 'All categories', 'Blog Archive', 'Last articles', 'Categories', and 'Tags'. Below these blocks is a 'Subscribe' block. At the bottom of the right column is a 'Grid 4 (span 4)' container. The entire page layout is labeled 'CONTENT' at the bottom.

- Blog article page

4.2 Block With the Blog Articles

You can add a lock with the blog articles on any page of your store, for example on the homepage.

Navigate to **Design > Layouts > Layouts > Homepage** and choose an existing section or create a new one, add new block **CP: Blog articles block**.

Products ▾ Customers ▾ Marketing ▾ Website ▾ Vendors ▾ Cart-Power: Add-ons ▾ Quick menu

Adding block to grid

Doge is an [Internet meme](#) that became popular in 2013. The meme typically consists of a picture of a [Shiba Inu](#) dog accompanied by text in the [Sans](#) font in the foreground. The text, representing a kind of internal monologue, is deliberately written in a form of [broken English](#). The meme is based on a 2010 photograph, and became popular in late 2013, being named as [Know Your Meme's](#) "top meme" of the year. The meme, the [Dogecoin](#), was launched in December 2013, and the Shiba Inu has been featured on [Josh Wise's NASCAR](#) car as part of a campaign. It has been referenced by members of the [United States Congress](#), a safety video for [Delta Air Lines](#), a [Google Easter egg](#), and the video for [AI" Yankovic](#). Toward the end of the decade, the meme saw somewhat of a resurgence in popularity. Several online polls and media outlets recognized Doge as one of, if not the best Internet meme of the [2010s](#).

The main editing area is titled 'Editing layout: Main' and contains several tabs: 'CP. Blog - Article' (highlighted with a red arrow), 'Виды настроек блога', 'Blog articles list options', and 'Add layout page...'. Below the tabs are buttons for 'Edit layouts', 'Phone preview', 'Tablet preview', and 'Desktop preview'. The layout preview area shows three sections: 'TOP PANEL', 'HEADER', and a main content area. The main content area is a 'Grid 16 (span 16)' containing a 'Main Content' block, a 'Related pro...' block (highlighted with a red rectangle), and a 'Blog Search' block. The 'Related pro...' block is highlighted with a red rectangle.

Final result at article page may look like this:

Кадры с природой в 4K для релаксации

E-mail - Subscriber's email-address.

Language - select subscriber's language, if you use several languages on the storefront.

Status - active or disabled.

7.2 Exporting Subscribers to Mailing Lists

Select contacts, press gear button and choose needed list.

The screenshot shows a web interface for managing subscribers. At the top, there's a header with a back arrow, a dropdown arrow, and the title 'Subscribers'. To the right of the title are three buttons: a gear icon (highlighted with a red arrow), a 'Save' button, and a '+' button. Below the header is a table with columns: 'E-mail', 'Language', and 'Date'. The first row shows a checked checkbox, the email 'cartpower@mailing.com', a dropdown menu set to 'English', and the date '04/06/2020, 15:32'. To the right of the date is a status 'Active' with a dropdown arrow. A context menu is open over the 'Active' status, showing three options: 'Delete selected', 'Export to: Subscribers', and 'Export to: Company news and unique discounts for subscribers'. On the right side of the interface, there's a sidebar with a search bar, a 'Language:' label, a dropdown menu set to '--', and a 'Search' button.

E-mail	Language	Date	Status
☒ cartpower@mailing.com	English	04/06/2020, 15:32	Active

9. Multi-Vendor Features

This section describes add-on features, available only in Multi-Vendor. The rest add-on features are similar to those in CS-Cart.

Vendors can post articles [in categories they are allowed to](#).

9.1 Adding Vendor Articles

Vendor adds article via page **Website > Power Blog > Articles** with the help of **+** (**plus**) button. Vendor's article has the same structure and settings as administrator's one.

After adding an article vendor will see the following notice:

Warning This article will appear in the store after administrator approval

The admin should approve articles to appear on the storefront. Vendor is able only to disable and make articles hidden. After the approval the article is published in the blog.

9.2 Managing Vendor Articles

When vendor creates an article it gets "**Not approved**" status.

LANGUAGE:  English ▾

« < 1–10 of 15 ▾ > »

☐	Article	Approved	Date ▾		Status
☐	Vendor Article #25, Article ACME Corp	No	04/10/2020	Not approved	Disabled ▾

10. SEO Name for Blog

It's crucial to set correct SEO names. Usually, if you've used the default blog before installing Power Blog, URL `website.com/blog` shows default blog, and Power Blog is available via automatically generated `blog-en` page.

To set URL `website.com/blog` for Power Blog, you need to change default blog SEO name first (for instance, to `blog`). It can be done at page **Website - Blog - [blog main page name] - add-ons**:
