

Riverview Review

May 2026

Principal's Message

Another school year has flown by! We have had such a great year at Riverview. Our students have grown leaps and bounds. I am very proud of the efforts of our students, teachers, and staff members who strive to make Riverview a great place to learn and work.

KEEP "A" LEARNING – Try to set aside 15 to 30 minutes a day for academic types of activities. Make sure your children continue to read and/or do some math activities. This will help them retain skills and confidence going into the next grade. SuccessMaker and Reflex will be up and running at least through July. The link is on our website and students really enjoy this amazing program. There are a lot of educational websites for students and the North Bingham County Library will be open all summer for our eager readers.

HUGE THANK YOU! We are fortunate enough to have a group of people making "magic" behind the scenes. I am speaking of our wonderful PTA members who support students and teachers so wonderfully. Our parents rock as well. A big thanks to the parents who continue to support their children, ensure they are ready and willing to learn, and support our school-wide endeavors. You are amazing! Enough cannot be said about our dedicated and professional staff. The care, concern, and effort this group shows each and every day inspires me. I "tip my hat" to all of you.

Internet Site of the Month – bestedsites.com – This comprehensive website has multiple links to all types of educational sites including math, language, science, and educational games. It is free and fun! Give it a try!

*Menus are subject to change

PTO News & Events —We Need You!

As the year ends, we will be looking for new parents to serve in the PTA leadership group for the upcoming year. We appreciate all that the current PTA group has done to support our students and teachers at Riverview. It has been a wildly successful and fun year! If you are interested in serving in the PTA leadership group or want to find out more about the responsibilities and duties, please contact Kelsey Higham (208-716-1930) or Terese Lott (357-5625) as soon as possible.

Academic Corner

To help students retain skills over the summer, establish a daily routine that has “academic time” built in. Here are some examples of activities that would benefit your students this summer:

- Visit the local library twice weekly and read books together as a family.
- Have math worksheets available for your students to practice skills –ask your teacher or make them up depending on the level of your child – addition, subtraction, multiplication, and division. You can google math sheets at varying levels on the internet as well as find great educational websites like bestedsites.com.
- Go to the museum and zoo
- Minimize the time students spend on video games or television - get ‘em outside and active!

Good News

- Over 95% of our students met or exceeded their third AR reading goals!
- The students are working hard and giving good effort on their ISAT tests! BTW - ISAT scores will be sent home at the end of the year along with an Understanding Student Scores information sheet for parents.

School Mission

To ensure HIGH levels of learning for ALL students
