

Welcome page

Welcome to the Story prompt Generator!

In order to use this prompt generator, you will need a few things:

- D20
- D6
- D4
- a coin
- Pencil and Paper

This prompt generator was created to help writers step out of their comfort zones and try something fun, exciting and different!

I originally made this as a Role-play ASMR script writing generator type thing to help push me out of writers block and help give me some interesting ideas.

Ever notice how some prompt generators just don't feel complete? I certainly have! I have gotten prompts like "Flirty Witch rescues you!" which is all well and good, but what am I? Am I a mermaid who got caught in a net? Or am I a human stuck somewhere? Well this generator should help with some of these problems! This generator helps you decide on the species of both speaker and listener, their personality archetype, a scenario idea and spice level! So grab your dice and notebooks or laptops! This is going to be interesting!

How to Play:

- 1) Every Prompt section, will have instructions on which dice you need to roll, but it'll be pretty obvious
- 2) Take your dice and roll!
You're allowed to have up to 3 re-rolls if you're not happy with your result, but it's more fun if you just keep the first result and see what kind of story the dice lead you to! ;)
- 3) Write down your results as you receive them, so you won't forget!
- 4) Take your prompt and Have fun!
