

Fudgy Peppermint Rounds

©www.BakingInATornado.com

Ingredients:

1 large box (24 oz) Little Debbie Fudge Rounds

35 starlight mints hard candies

About 20 oz candy melts, chocolate, red, or pink

Directions:

*Unwrap the fudge rounds and crush in a bowl.

*Crush 5 of the mints and set aside for topping. Crush the remaining 30 mints and add to the bowl with the fudge rounds. Mix.

*Using your hands, squeezing tightly so they stay together, form the crushed cookie/candy mixture into 36 balls. Place individually onto parchment paper and refrigerate for at least an hour.

*Melt the candy melts in a bowl or mug according to package directions. Working quickly, place each ball onto a fork, dip into the candy melts to cover completely. Allow the excess to drip off, then using a knife, ease off of the fork onto parchment paper. Immediately, sprinkle with a little of the remaining crushed mints and allow to set.

*Note: wipe off the fork and the knife after dipping each ball. If the candy melts in the bowl start to harden, microwave for 15 - 20 seconds until it liquifies again.
