

Eufaula High School
FRESHMAN Pre-Enrollment
2025-2026

Dear EHS Parents/Students,

All student course requests will be through our student information system, Sylogist. Students will be able to login to their student information system with their username and password to choose courses for the upcoming school year. Parents will have access from their parent portal to see the students course requests.

All students need to add themselves to their graduating class google classroom if they are not already. Follow the following directions to join google classroom.

- Be sure to be logged into your school email account.
- Go to the EHS Counseling Center website. (<https://tinyurl.com/2bmmljo5>)
- Click on Google Classroom.
- Click on your graduating class year.
- Click Join.

The following are a few guidelines to follow when selecting your course requests.

- You must have had an A or B in the subject to choose an HONORS (H) or Advanced Placement (AP) course.
- Virtual, KTC, AP, internship and concurrent course requests must have prior authorization from Mrs. Graham. If you plan on taking any of these courses you will need to complete the requirements and Mrs. Graham will change your schedule accordingly. You will need to add courses to your schedule as if you were going to be at school full time. Once the requirements are met for the off campus courses then your schedule will be changed and you will be emailed a new schedule.
- Yearbook must be approved by the teacher. If you are not approved your request will be removed.
- Fundamentals of Technology is a prerequisite for all technology courses except Yearbook. This means you must have Fundamentals of Technology before any other technology course.
- Cybersecurity and Interactive Media classes must be completed in the order they are numbered.
- Juniors and seniors are allowed to take up to three hours of Cybersecurity and Interactive Media classes in a school year. You are allowed to request more than one of the courses available in those categories.
- When typing in a course request you can use the course code on the left or the course name from the course list on the back of this page.

Advanced placement (AP) courses will be optional for students. All AP courses will be taught virtually through EdOptions with an online teacher. AP classes make it possible for students to be able to earn a college credit, but it is not guaranteed. After completing the AP course (2 semesters) students must pass the AP test given at the end of the year by the College Board. The student and/or parent will be responsible for finding a testing center and the cost of the AP testing. These classes will not be available on the course request list on the student information system. Students must meet with Mrs. Graham in order to be able to enroll in an AP course.

AP Course Options

Biology	French
Calculus	Macroeconomics
Chemistry	Microeconomics
