

Proposed agenda & Notes

- General updates:
 - Tim / Kris: Status update on Drupal core work that affects us?
 - Block context core patch:
 - <https://www.drupal.org/node/2377757>
 - There is some review that still needs to be addressed - EclipseGC is planning to get to it eventually
 - EclipseGC says “alexpott’s [review] are the most problematic, the rest of the review issues are minor in scope and mostly visual”
 - This is the last SCOTCH core issue - anything new (in core) will be a surprise
 - Tim: Status update on [page manager](#)?
 - Static contexts patch
 - <https://www.drupal.org/node/2284005>
 - Got reworked and is back to Tim
 - Tim: “i don't really agree 100% with the implementation as it stands, but its looking good from the UI”
 - Frega / David / aspilicious: Status update on [layout plugin](#) and [frega's layout module](#)?
 - No progres to report
 - Jakob / David: Status update on Panels port?
 - No code-related progress to report
 - Proposal was accepted by Drupal GSoC admins
 - Not sure when Drupal will hear back from Google
 - Discussion topics for this week:
 - Drupalcon presentation
 - Confirmed participants: dmckenna, dsnopek, cboyden, japerry, timplunkett
 - Google Doc coming to brainstorm on presentation content
 - dmckenna is on top of the session proposal
 - ...
 - Next steps:
 - ...

Participants

- EclipseGC
- dmckenna
- dsnopek
- timplunkett

- japerry

Log

12:00 PM <[EclipseGc](#)> afternoon now I guess

12:00 PM <[dsnopek](#)> Hi Everyone!

12:00 PM dmckenna|lunch → [dmckenna](#)

12:00 PM <[dsnopek](#)> Here's the agenda/notes for this meeting:
<https://docs.google.com/document/d/1WFYHoMva8WltdTfkmLM54UTgSRA4fHE4MUVixjun96E/edit?usp=sharing>

12:00 PM <[dsnopek](#)> Who all is here for the meeting?

12:01 PM <[dsnopek](#)> japerry: frega: timplunkett: meeting?

12:01 PM <[timplunkett](#)> hi

12:01 PM <[Druplicon](#)> what's up

12:01 PM <[japerry](#)> gmorning!

12:01 PM <[japerry](#)> yup yup!

12:02 PM <[dsnopek](#)> Cool, that's enough folks to get started :-)

12:02 PM <[dsnopek](#)> So, status updates! timplunkett / EclipseGc: anything notable going on for us in core?

12:02 PM <[EclipseGc](#)> heh

12:03 PM <[EclipseGc](#)> dsnopek: no, I just landed a new job at Acquia last week, and honestly that was my priority for about the last 6 weeks now

12:03 PM <[timplunkett](#)> <https://www.drupal.org/node/2377757> is stalled again, not sure what the next steps are

12:03 PM <[Druplicon](#)> <https://www.drupal.org/node/2377757> => Expose Block Context mapping in the UI [#2377757] => 62 comments, 15 IRC mentions

12:03 PM <[timplunkett](#)> EclipseGc: what's your new role?

12:03 PM <[EclipseGc](#)> next steps are for me to get that thing going again

12:03 PM <[EclipseGc](#)> timplunkett: I think the official title is "Technical Specialist"... I think

12:03 PM <[EclipseGc](#)> timplunkett: part of PS now

12:03 PM <[timplunkett](#)> cool

12:03 PM <[dsnopek](#)> EclipseGc: I think there is some review that still needs to be addressed on #2377757, right?

12:04 PM <[dsnopek](#)> EclipseGc: Congrats on the new position!

12:04 PM <[EclipseGc](#)> dsnopek: there are a couple yes, alexpott's are the most problematic

12:04 PM <[EclipseGc](#)> dsnopek: thx

12:04 PM <[EclipseGc](#)> dsnopek: the rest of the review issues are minor in scope and mostly visual

12:05 PM <[EclipseGc](#)> but alex wants the approach to context mapping stored in the config to be different

12:05 PM <[EclipseGc](#)> my first pass at that broke some stuff

12:05 PM <[EclipseGc](#)> so we need to get that working again and then take care of the minor visual review stuff

12:05 PM <[EclipseGc](#)> but the visual still is very minor

12:05 PM <[EclipseGc](#)> so I am confident that most of what needs to happen there is specific to alex's review

12:06 PM <[dsnopek](#)> EclipseGc: Cool, thanks!

12:07 PM <[dsnopek](#)> Is there anything else in core? Or, excepting new things core throws at us, are we totally in contrib now?

12:07 PM <[dsnopek](#)> er, will we be totally in contrib after that issue, that is

12:08 PM <[timplunkett](#)> that is our last known issue

12:08 PM <[timplunkett](#)> anything else after that will be a surprise

12:08 PM <[timplunkett](#)> afaik

12:09 PM <[dsnopek](#)> timplunkett: Thanks!

12:09 PM <[dsnopek](#)> So, moving on with status updates - timplunkett: page manager?

12:09 PM — [EclipseGc](#) agrees with timplunkett

12:10 PM <[timplunkett](#)> dsnopek: <https://www.drupal.org/node/2284005> is back in my court now

12:10 PM <[Druplicon](#)> <https://www.drupal.org/node/2284005> => Implement static contexts [#2284005] => 34 comments, 4 IRC mentions

12:10 PM <[timplunkett](#)> i don't really agree 100% with the implementation as it stands, but its looking good from the UI

12:12 PM <[dsnopek](#)> timplunkett: Noted! Is that it in page manager?

12:12 PM <[timplunkett](#)> yes

12:13 PM <[dsnopek](#)> timplunkett: Thanks!

12:13 PM <[dsnopek](#)> On to layout_plugin: I haven't had any time to work on it, personally

12:13 PM <[dsnopek](#)> And frega and aspillicious aren't around to comment

12:14 PM <[dsnopek](#)> On Panels: the only thing to report is that our GSoC proposal was accepted by the Drupal GSoC admins

12:14 PM <[EclipseGc](#)> dsnopek: awesome!

12:14 PM <[dsnopek](#)> Not sure when Drupal will hear back from Google

12:14 PM <[dmckenna](#)> dsnopek: sweet!

12:15 PM <[dsnopek](#)> Otherwise, nothing else from me on Panels

12:15 PM <[dsnopek](#)> japerry: Do you have any updates?

12:15 PM <[japerry](#)> dsnopek: just that I got my bio updated for GSoC

12:15 PM <[japerry](#)> and I'm excited to see how that goes!

12:16 PM <[japerry](#)> and the panel for DCLA, but guessing more of that will happen in the next 2 or 3 weeks

12:16 PM <[dsnopek](#)> Oh, yeah!

12:16 PM <[dsnopek](#)> That's sort of pan-Panels :-)

12:16 PM <[dsnopek](#)> dmckenna: So, who do we have for the presentation so far?

12:17 PM <[japerry](#)> yah :-P I'm still stuck in this -almost- release for events.drupal.org... once we get that pushed up I'll have more free time to work on the other issues around panels/ctools/etc

12:17 PM <[dmckenna](#)> We have cboyden, me and dsnopek, neither japerry nor timplunkett have replied yet.

12:17 PM <[japerry](#)> dmckenna: you didnt' get my email?

12:18 PM <[dsnopek](#)> japerry: I saw your e-mail to include timplunkett, but I didn't see one where you said you were in

12:18 PM <[dmckenna](#)> japerry: Only the one that suggested contacting timplunkett.

12:18 PM <[dsnopek](#)> japerry: Are you in? :-)

12:19 PM <[japerry](#)> ahh yes yes, oops I should have been more consise :-)

12:19 PM <[japerry](#)> definitely!

12:19 PM <[dmckenna](#)> (which I had done already)

12:19 PM <[japerry](#)> I'll reply back to that effect

12:19 PM <[timplunkett](#)> japerry: that was funny, because i was already CCd on those emails :)

12:19 PM <[japerry](#)> LOL

12:19 PM <[dsnopek](#)> timplunkett: Do you want to be part of the presentation?

12:19 PM <[japerry](#)> timplunkett: how the hell did I miss that?

12:19 PM <[dmckenna](#)> timplunkett: Would you be able to / interested in joining?

12:19 PM — [dmckenna](#) cleans japerry's glasses.

12:19 PM <[japerry](#)> ;)

12:19 PM <[japerry](#)> maybe I need glasses!

12:20 PM <[timplunkett](#)> dmckenna: i could if need be

12:20 PM <[dmckenna](#)> timplunkett: You've put more work into the D8 port(s) than anyone, your input would be very much appreciated.

12:21 PM → [jibran_](#) joined (~jibran@drupal.org/user/1198144/view)

12:22 PM <[dsnopek](#)> dmckenna: Is there anything else you want to discuss about the presentation at this meeting?

12:22 PM <[dsnopek](#)> dmckenna: And do you need help working on the description that will be submitted?

12:22 PM <[dmckenna](#)> I'm going to email the invitees a link to a gdoc where we'll brainstorm what we'll be discussing, we can meet / discuss it separately.

12:23 PM <[dmckenna](#)> dsnopek: I'm good, thanks.

12:23 PM <[dsnopek](#)> dmckenna: Ok, cool, thanks!

12:23 PM <[dsnopek](#)> Is there anything else anyone would like to discuss today?

12:24 PM ↔ [jibran](#) (was jibran__) nipped out

12:26 PM <[EclipseGc](#)> nope, all good

12:27 PM <[dsnopek](#)> I'll give it another minute, so it's 5 minutes since I asked :-)

12:28 PM ⇐ [jibran_](#) quit (~jibran@drupal.org/user/1198144/view) Ping timeout: 244 seconds

12:28 PM <[dsnopek](#)> Alright! Let's call that meeting

12:28 PM <[dsnopek](#)> Thanks everyone!
