- Summary: I feel that I am up, possibly inside something manmade. I can feel sunshine, a breeze, and it's cool. I am looking down/out to see a landscape. Feels like US West, so maybe the Rockies. I am looking down a mountain or hill, and seeing fields, farms, some buildings. I am ~~also~~ also seeing rocks & earth, ~~so~~ so I am not sure. I am sheltered somehow as well, but that might not be apparent in the image. There are people near me, and others approaching where I am. Lastly, there is energy overhead that is out of my reach. And I don't know what it is.

Lin

hi

I just saw your message. Would you mind if I set Cherry Davis as the practice target of the week?

skoal

2024/11/6 凌晨1:07

Absolutely. I'd love to have that

I miss her.

Lin

2024/11/6 凌晨1:08

What would you like to get from this session, if someone is able to hit the target? We need a prompt question.

skoal

2024/11/6 凌晨1:11

Mostly if she's still alive. She was someone from our church I formed a good connection with years ago, she was my crush, and it turned out later she liked me, but we switched churches like right after she confessed our feelings for each other, and I've never heard from her or seen her since

Lin

2024/11/6 凌晨1:14

1. Describe the last time Skoal hung out with Cherry Davis.

2. Describe Cherry Davis's current location and what she is doing.

This is just an example.

The first question is for verification; we need to compare the submitted data with known facts.

The second question is purely speculative; data only holds value if remote viewers can correctly answer the first question.

skoal

2024/11/6 凌晨1:17

1. The last time I hung out with her was when I was camping at alder lake, we sat on a log together and confessed that we liked each other, this was around 2007.

2. Is the question. I have no idea where she is.

 1

She has no social media I've tried to search for her and it's like she's a ghost. She just doesn't exist

Lin

2024/11/6 凌晨1:22

Great! It will be interesting to see how well the people in this Discord group handle this target. But please keep your expectations low, as our collective hit rate is only 30%. I will post it later.

skoal 2024/11/6 凌晨1:25

No worries. I don't expect a lot. I guess I just miss her. I don't know if there's any way I could even contact her. I just want her to be okay  
We used to run around in church together and I always thought she was so cute. Her dad moe was an awana leader that taught my class, he gave me a bunch of old baseball cards for learning verses of the Bible  
When I found out she liked me back I died.

Then we moved churches and I fucking cried for days.  
I'll probably never see her again. I just want to know she's okay

skoal 2024/11/6 上午8:42

Idk if it will help but these are the last photos I've found of them

That photo of cherry is probably 13 years old. And that's what makes me so distraught  
I just want her to be alive
