In-Home Dog Training in Hanover, PA

Focusing On The Dog in Front of You

At Smart Paws Academy, we take a different approach to dog training than just saying no or giving them a bunch of treats. Instead, our personalized approach helps us understand your dog and how they learn. Whether you're dealing with puppy training, lead pulling, constant barking, or jumping on guests, we help dog owners in Hanover, PA.

Dog Training That Fits Your Life

Most dog training programs happen at a facility and not in the home where your dog naturally acts. Personalized in-home dog training lets trainers understand what triggers your dog's reactions and find ways to make your everyday life easier. The goal is to help you and your dog stay calm and comfortable in everyday situations, like door greetings, leash pulling, jumping, barking, and more.

Bonus: You don't have to take extra time out of your day to understand your dog's behaviors. I come to you and work with your dog in an environment where they feel comfortable.

Dog Training for Puppies and Adult Dogs

Dogs need different training at different life stages. Smart Paws Academy works with puppies and adult dogs in Hanover, PA, to correct behaviors early and reinforce good behavior later.

For young puppy training, we'll focus on building a healthy relationship around name recognition, crate training, basic obedience, and introducing leash walking. Starting small with the basics will get you and your puppy on the same page and support training as they get older.

Our Pathways program focuses on dogs struggling with barking that won't stop, reactions to visitors, people, or other dogs, or behavior that makes you unsure if you're safe. I take a slower approach to understanding your dog and make sure they feel comfortable learning new behaviors in their home.

Then our Smart Paws Essentials program is for dogs that need a little reinforcement in good behaviors. We'll focus on behaviors like pulling, jumping, and inconsistent focus to make everyday life easier in your home.

Ready for a Calmer Life With Your Dog?

Training your dog on your own with commands and treats can be challenging. With Smart Paws Academy in-home dog training, we'll take a calm approach and truly understand the dog in front

of you. From leash pulling to jumping, we help dog owners in Hanover, PA, create a calmer, safer home environment.
