Detailed Steps to register for the Olympiads.

Dear students,

You are invited to take a free online exam in one or all of the following areas: geography, history, and science. After you qualify, you can then compete at the regional tournament (with buzzers) at Carrillo Elementary School.

First, review the study materials found here. Check out the past exams and study guides to get an idea how the test will look.

When you feel you are ready, register at IAC Online Regional Qualifying Exam

For the teacher email, type in ***the email anuramdas2023@gmail.com***

After you click submit, you will get a student ID. Write it down! You are now ready to take the exams!

The above mentioned steps below……

Step 1:

The students will access the ORQE website (orqe.iac-exams.com) and click "Take an Exam" at the top of the page.

They then will "create a new account" by scrolling down the page, filling in the email address (anuramdas2023@gmail.com) as the teacher/sponsor.

Step 2:

Students can take exams in History, Geography and Science. These are all 50 question, multiple choice exams with a 20-minute time limit. Once they click submit, results should be available in about 24 hours. Students are only compared to kids in their own division.

Step 3:

Once the student has qualified, they can sign up for a regional final near you! They offer sites around the country and online with three question sets, so students can compete in up to three different regional finals, determined by season!
