## What Is Ultimate AI?

I've made over \$1500,000 with AI + my own custom software.

Now it's YOUR turn to...

[Learn how to ACTUALLY profit with AI in 2023!](#)

## Here's what you get with THE ULTIMATE AI...

> **World's most powerful AI software** - 50x DFY AI prompts. All YOU need to do is copy and paste text from somewhere (your website, Google News, Twitter, an affiliate link), and paste it into the AI. Then, my software wraps an ultra-advanced "AI prompt" around the text you just pasted, and sends it to one of 3 different AIs (including the newest Chat-GPT Turbo, & Dall-E image creator).

The AI then executes my fiendishly clever prompt, and creates a complete ASSET for you that you can make money with. All YOU need to do is PASTE some text in and my AI app literally does the rest.

I've made over \$100/day, \$400/day.. even \$2500/day (!) with these AI prompts, and all you have to do is paste some text in to create the same assets as me.

### > **50x Instant Done For You Income-Generating Assets**

This single, all-in-one cloud-based app creates FIFTY different assets by copying and pasting.

These 50x income streams are all tested and proven by me, with case-studies. Then I turned each method that made me money into a SUPER ADVANCED NERDY MEGA-PROMPT (in some cases 1,000+ characters long) which allows YOU to just PASTE TEXT INTO A WEBSITE and the AI does the rest. In EVERY case we have selected the best AI model for the prompt, and configured the model to the exact settings which deliver the most profitable results. What is the context window, the ideal temperature, the model, the prompt? Who cares? I DO! But.. from your point of view? It's simply automated, copy-paste and DONE FOR YOU AI!

## **A SMALL SAMPLE OF THE 50x INCOME-GENERATING ASSETS THAT THE MOST POWERFUL ALL-IN-ONE AI-ENGINE BUILDS YOU.. WHEN YOU JUST PASTE SOME TEXT IN! LOOK! 🙄👉**

Here's just a small selection of the 50 assets you can create with the software:

- **Entire WarriorPlus software tools** - Say whuuut! That's right. My last Warrior offer (2 Click AI) was entirely made with Chat-GPT. INCLUDING THE 5 SOFTWARES on the front-end. That' was DOTD and #1 and NO DEVS were used. And I'm now giving you the prompt I used so you too can create your own instant software (yes, literally!) for ANY niche or audience you have. YES this is actually just one of 50 prompts on the frontend!

- **Cloud-based video games** - When I say I've been in the "AI CAVE" I really mean it. On my travels I've found a way to generate images on the fly (using just URLs), and to make video games with Chat-GPT. And thus.. You can create instant video games with fully custom sprites and graphics, purely with GPT
- **Banner Ads** - Using this same "instant free images" loophole, I've built a mega prompt which generates an INSTANT banner ad (1000x1000) for any niche or product, with preloaded copy (headline, subheadline and CTA button) plus three images, placed on top of a background image. All YOU need to do is paste to get an instant banner image.
- **Complete 10,000 Word PDF ebook & report** - The AI runs a two-step prompt to create super high quality valuable reports for ANY niche (just by pasting in text from your website). It of course lets you brainstorm topics and titles first, and prepares a very thorough table of contents and summary, so you can edit your structure before clicking the magic button to make your prompt.
- **\$2,000 Google Chrome extensions** - I used this prompt to get GPT to make a upsell 3 of Whisperer (that made me over \$6k!). Did I just say that my ultimate AI app can create you brand new Chrome extensions, from scratch, for any niche. And.. you just paste in some text from the website (or niche) you want the extension for? Yes! I DID!
- **\$50 Stock-Level Images including vectors & photos** - again just paste in a few words and the AI will do the rest. If you missed my "Image Whisperer" product (upsell 1 of AI Whisperer) this will show you how Dall-E can spit out STOCK-LEVEL images.. IF you give it the right prompts.
- **Expert Level MidJourney prompts** - the AI will create world-beating MidJourney prompts for ANY niche (just paste some text in). These prompts are a mix of keywords from your niche (selected by the AI based on SPECIFIC rules I give it) AND also some additional prompts that work particularly well on MJ (styles, aspect ratios, filters, etc), which again the AI selects based on the formula I hand it.
- **Viral Tweets based on TODAY's (Google) News** - copy-paste some text from Google News and watch as the AI selects the best topic then writes a pithy viral tweet, with hashtags
- **BRAND NEW eCom products** - mm yeah, the AI literally creates entire eCom products. Paste some text in about your website, then the AI will extract keywords, insert them into dozens of different proven ecom designs (that made millions on Spring, Zazzle, etc), then select the best ones and serve them to you on a platter. I'm including software to make the design, then you can sell them on an ecom platform (or your own Shopify store). Create ecom products from scratch? Yessir, and this is one of 50x
- **PRO-level Affiliate Reviews** - of course, the tool creates affiliate reviews from scratch, either for your video script or to add to websites. I use this prompt myself and made over \$400/day.

- **Affiliate Bonus Reports** - yes the AI will also recommend perfect bonus reports to give away to people who buy through your affiliate link (and then of course it will create them for you too)
- **2,000 Words SEO Mega-Articles** - the core use case for many a Chat-GPT user. But this bad boy spits out monster 1,000 to 2,000 word articles, structured in a very deliberate way, based on clear SEO guidelines that “white-hat” mega-sites follow. The difference here? You just in a bit of text, choose the topic you want.. Pick a title.. And get your article back out.
- **AI Detection Breaker** - Google has said they don’t penalize AI content “per se” - they only penalize low-quality content. Given that you’ll be spitting out ultra high quality content, focused on high-volume buyer keywords by default, you should be good. BUT, in case you’re extra nervous, simply paste any article into this box and click “GO” and we will make it super human readable. This confused ALL the AI detectors in our tests, actually improved readability and takes the average AI test from “60-80% AI” to “5-20% AI”. Insane. Still obsessed? We show you how to get it to 0% in a few seconds.
- **Websites (bridge pages)** - if you’re still in shock at the idea of AI creating Chrome extensions or eCom products, then this will stun you. Here we are just going to paste some text (from a sales page we want to promote), add our affiliate link and when we click GO.. the AI will build us a brand-new landing-page with style sheet, professional sales copy.. even some eye-catching Javascript! And yes, this is the EXACT lander my affiliates run on Google PPC. Compliant, high-converting, classy.. And made by AI in 2 clicks? Yup!
- **AI-Generated Video Clips with StableDiffusion** - are you copying some text from an affiliate website you want to promote, spinning it with a weird AI prompt, then pasting the JSON code into a cloud-based install of a diffusion-based video creation AI engine? Then using the MP4 it makes to bank you \$300 commissions in an hour? No? Then you’re LOSING 2023. Let me bring you up to speed with this prompt. Just paste some text here and my AI tech does the rest.
- **Instant Slide-Video From Any MP3** - “OK chris, so let me get this straight. I have an MP3, right. And what you’re saying is, with this prompt, you will give me a slide-animation, with timings perfectly synced, and up to 100 slides of text, styled and laid out perfectly”. Yes that is what I am saying.
- **YouTube to YouTube video spinner** - “OK and what you’re saying here Chris, is that there is way to take a Youtube video I want to model after, any YouTube video and.. Use the AI to create an entire new, unique, respun version of that video. And the AI will even suggest 3x new titles for me?” Yes. Correct again.
- **Freelance Automator** - imagine if you could find a job on a freelance site that you want to win, copy the job description, paste it into the AI.. and then AI writes out a full response to the client (with details and questions specific to the job), and it even creates a prompt which you can use to then get another

AI to fulfill the job for you (oh and add a prompt which instantly can deliver a sample of the job if you feel like spending another 30 seconds to make a sample for the client before the job starts)

- **VSL Script Creator** - It wouldn't feel right if I didn't completely BOSS the copywriting side of things. And that's why ULTIMATE AI lets you create INSTANT VSL sales scripts (broken down into 10x separate steps), just by copy-pasting text into the AI
- **PRO-LEVEL headline generator** - those other AI copy tools can't compete with this. Paste some text from any website, hit go.. And watch as the AI hands you 3x jedi-level direct marketing headlines, as if written by masters like Gary Halbert.

🤔 **Q: HOW CAN YOU GET THE A.I TO  
CREATE ALL THESE CRAZY THINGS?** 🤔

👉 **A: THE PROMPTS WE USE ARE NUTS!** 🦊

Here's a quick sample of the *least impressive* prompt (which creates a story/hero narrative for copywriting). Look at how stacked even *this* is!

Remember, it's because of detailed prompts like this that all you have to do is copy-paste some text and the AI does the rest...

I now need you to write me a "hero narrative" story about the discovery of this product, to be written in the first person ("I" or "we" depending on whether the hero is an individual/founder or company/team).

This should be a success story, almost like a typical "rags to riches" story, where the moral of the story is "anyone can do it". The story should tell of the painful - but in the end rewarding! - journey that the founder(s) went through to make the discovery that resulted in this amazing product.

This story/narrative has a specific type of structure, which you should model, as follows:

**1. BEGINNING - LONG-TERM PAIN - BUT SECRET VALUE**

The founder/team is struggling - specifically in ways that relate to the core benefit that the product would in the future eventually offer. The founder is in a pit of despair and emotionally distraught, unable to get the benefits they want, and perhaps experiencing other types of distress also in their personal life. However, the founder also has some secret, hidden value inside them, an idea, angle or direction which has not yet been released.

**2. MIDDLE - STRUGGLE, EXTERNAL EVENT AND TURNING POINT**

Some event - typically an outside event or lucky event - happens, which

**3. END - SUCCESS AND BENEFITS - AND PRODUCT RELEASE**

The hero applies the method, attains the benefits they have been searching for, enjoys a hugely improved quality of life, and then releases this as a product, so others can also enjoy these benefits. This success is about the results, and it is also about the benefits that relate to the product, but is more so about values - pride, recognition, status, fulfillment, calm.

Based on this three part narrative arc, please write a "hero narrative" story for this product. Depending on whether you think a team or individual is behind this, you should write as I (for a single founder) or we (for a team), but it should all be written in the first person.

To make the story more realistic and relatable, consider adding specific dates and times to the story, even if fabricated (I will edit them later), and reflect deeply on the way that the story flows in a logical, narrative sequence of consistent consequential events.

The text should contain lots of emotions, really aggravating the pain, elation, excitement and feeling that a typical customer of this product would feel on this journey.

For each of the three parts, write between 200-400 characters.

> **Anything else included?** Yeah as well as the core software (which is the main event here), we also include training videos, PDF downloads + constant updates.

**In short, this really is THE ULTIMATE suite to profit in the coming AI wars of 2023. Weapon up lads, it's gonna be a mad decade...**

## **FRONT-END PRICE INCREASES - PRICE INCREASES EVERY HOUR**

We have learned that scarcity results in AWESOME conversions for affiliates.

So we are increasing the price EVERY HOUR...

**THE PRICE WILL INCREASE BY \$0.10 EVERY HOUR, SO CONVERSIONS WILL BE VERY STRONG, ESPECIALLY EARLY ON!**

## **⇒ OUR NEW FUNNEL**

**The frontend for ULTIMATE AI is smoking... But the upsell funnel is nuts too!**

### **Frontend - ULTIMATE AI - \$15-23 (hourly dimesale!)**

The core software that lets people profit... with 50x 100% DONE FOR YOU, COPY-PASTE AND ALL-POWERFUL "ULTIMATE" AIs. This all-in-one suite uses FIVE AI's to let you automate ALL of the core moneymaking systems which made us \$100, \$400.. even \$2,000 per day.

See above for the full breakdown, but with this insane all-in-one cloud-based suite - that makes us \$100 to \$2,000 per day...

**You can create: instant software, video games, comic books, chrome extensions, articles, Notion templates, sales letters, email subjects, banner ads, ecommerce products placed dynamically on top of tshirts, slide videos, voice-overs, photos you can sell, graphics, slides, PDF reports, websites, affiliate reviews, prompts, icons + more - all with this single AI app!**

### **Upsell1 - ULTIMATE AI Pro/Unlimited Edition - \$47**

Firstly, unlock the ability to run even more prompts and even longer prompts - increasing the speed and potential profits by 500%! Second, access 5x extra profitable prompt sequences and systems that aren't included in the front-end. The front-end makes me \$400/day, but I've made as much as \$5,000 per day with these!

...

### **Upsell2 - Buildrr - \$97**

Shhh. This shows you my loophole to generate unlimited media and software tools (of a different type to the one I used with 2 Click AI). Hush now.

...

### **Upsell3 - ELITE AI Video Suite - \$97**

Everyone's talking about how AI lets you create "faceless" YouTube channels. Nice baby move. You reached level 3. But.. did you know you can create entire VIDEO COURSES too? That is.. If you get my Video AI suite, including multiple software tools, a new AI Chrome extension and an entire video course hosting platform with resell rights (so you can cancel your Kajabi subscription.. Then turn around and let your customers do the same too!) Oh.. and it's all done with AI. Hopefully you're learning.. Once more, my upsell #3 are better than 99% of marketers front-ends.

...

### **Upsell4- AI Whisperer GOLD EDITION - \$17**

I had to include this here. Really at this point everyone should have AI Whisperer, but on the off chance someone didn't, the guilt of them not having the de facto primer on generative-AI would send me into a depression. Offered here at a small ticket with some extra bells and whistles. As a kind thank you to all the affiliates who promoted Whisperer v1, and since I want as many people to get this as possible, this will pay out 90% commissions.

...

### **Upsell5 - Push Pro AI Edition - \$97**

Your very own push auto-responder... but powered by AI? YES! Build unlimited leads of web push subscribers then use AI to turn any website into a web push subscription.
