name: Alexis wants YOU to write a script

description: template that Switchboard users can utilize to learn to write their scripts!

display_question: Are you interested in bulk creating a script in Switchboard?

inbox_responses:

- answer: Yes, let's do it!

- content: "Awesome, remember the best practice of wrapping your content with double quotes, especially if you are using colons or links!"

- label: label 1

- display_question: Willing to learn more?

- branches:

- answer: yes, teach me how to use this!

- content: "just remember to line up content with the a in answer"

- label: label 2

- answer: yes, what are some other tips and tricks?

- content: "best practice is to drop this into a text file, and choose syntax to help better format your yaml file before dropping it into Switchboard! You can also copy and paste the above format over and over again to make sure your spacing is right!"

- label: label 3
