

JOB DESCRIPTION

About Taulia:

Taulia is a fintech provider of working capital management solutions headquartered in San Francisco, California. Taulia helps companies access value tied up in their payables, receivables and inventory. A network of more than 2 million businesses use Taulia's platform to determine when they want to pay and be paid. Taulia processes more than \$500 billion each year and is trusted by the world's largest companies including Airbus, AstraZeneca, Nissan and Vodafone. For more information, please visit www.taulia.com.

About the job:

Taulia is looking for an intern who:

- Is excited to work in a high velocity, agile startup environment.
- Is excited to learn about reusable, standardized API designs.
- Is keen to get their hands right into the code to build out the API and service logic.
- Understands that code deliverables require testing in an automated, repeatable way.
- Is enthusiastic, proactive, and has an existing track record of successfully completing projects.

Competencies and Qualifications:

- Current university student or recent graduate of a BS/MS/PhD university program in Computer Science, Computer Engineering, Software Engineering or related fields.
- Can demonstrate in-depth knowledge of data structures and algorithms.
- Must have a strong knowledge of REST, JSON and the HTTP protocol.
- Experience in software development using an Object Oriented language, i.e. Java.
- Having mastered build scripts with Gradle and Maven in the past.
- A working knowledge of dependency injection using Spring.

Nice to Have:

- Experience with web security, SAML and SSO.
- Having a basic understanding of application containers, i.e. Docker.
- Demonstrated interest and ability to learn and adopt new technologies.
- Curiosity to learn more about the financial system between B2B companies and dive into the accounts payable and accounts receivable financing space.

Taulia is an Equal Opportunity Employer --Minority / Women / Disability / Veteran / Gender Identity / Sexual Orientation / Age.

If you don't think you meet all of the criteria above but still are interested in the job, please apply. Nobody checks every box, and we're looking for someone excited to join the team.
