

For your board meeting on Wednesday, April 13, you were asked to answer and share with the board the below two questions.

- What is your vision for our students and district facilities?
- What do you value and why?

On Wednesday, April 20, during a work session with IASB, you took your answers, as they were captured previously, and grouped the answers together where you found themes or common messaging. You then created heading names for each grouping. This is the outcome of that work.

Over Arching Our legacy for future kids ***Fiscal responsibility	
Culture Centralized campus Community based schools What do dynamics look like in 10 years? More fluctuations Community/family/small town	Facilities State of the art facilities *Provide optimal learning environment Our facilities – reflect our values *Safe, secure, comfortable learning – focus/healthy atmosphere Ownership & pride in buildings
Student *Students have so many opportunities want to hear & comments acad. Top quality education Increasing academics same passion as for activities Opportunities to succeed Excellent product with resources available More prepared *Ensure ready for college, life work *Strong-quality education, prepared for workforce	Teachers/Staff Servant leadership – maintain for all, excellent teacher, fidelity, equity situation Teachers – inspired, want to come to work, equipment & resources they need Creativity of building leadership in use of space Create & sustain environments – all kids learning challenging learning

* Before a statement means that more than one person had that answer. If there are ** or ***, that equates to the number of board members that had that thought/idea.
