Due to mental delays and social impairments, restorative practices do not work with some special needs students. The district should consider alternative options for this student population. Include <i>Get to Know your SRO</i> in the next iteration of the SRO MOU. Communicate the importance of SROs reviewing behavior intervention plans. SRO options should include language that school administrators lead student discipline and behavior interventions.

				Next Meeting Agenda • Entertain final comment concerning the SRO program options • Review a draft of the School Safety & Security Survey Questions • Review the administration's timeline for the school safety and security review process
