

Keep It Active with Block Scheduling [Sessions 1 & 2]

Presenters: Amanda Atkins & Bethany Brown

Targeted Group: CCHS & SCJSHS Teachers

Location: CCHS Media Center

Resources: [Presentation Link](#)

How do I incorporate active learning strategies into a 90-minute block?

Beyond transitions, how do I keep students engaged and learning throughout the full 90-minute block?

Join Amanda and Bethany as they share active learning strategies and how to use those throughout your block schedule.

PLC Connections

	What do we want all students to learn and be able to do?		How do we know kids have learned it?
	How do we respond when kids don't learn it?		How will we extend the learning for kids who have already learned it?

De-escalate [Sessions 1 & 3]

Presenters: Emily Kirkham & Heather Stilwell

Targeted Group: All Teachers

Location: CCHS Room 215

Resources: N/A

When a child is agitated, how do we better help de-escalate and regulate those emotions?

How do we better help calm the situation instead of engaging in a cycle of conflict?

Join Emily and Heather as they share strategies in de-escalation at all grade levels.

PLC Connections

	What do we want all students to learn and be able to do?		How do we know kids have learned it?
	How do we respond when kids don't learn it?		How will we extend the learning for kids who have already learned it?

Know 'Em Before You See 'Em [Sessions 1 & 2]

Presenters: Allison Schalk & Cam Smith

Targeted Group: 1-12 Teachers, Special Education Teachers

Location: CCHS Room 214

Resources: [Presentation Link](#)

How can we set up and adjust for this coming school year to meet the targeted needs of our students before they even walk through the classroom door? By looking at past data!

Join Cam and Allison as they help all teachers dig into this year's students' past data: mCLASS, IREAD, ILEARN, NWEA and PSAT to identify specific needs and develop a plan before the year starts!

PLC Connections

	What do we want all students to learn and be able to do?		How do we know kids have learned it?
	How do we respond when kids don't learn it?		How will we extend the learning for kids who have already learned it?

Get Active! [Sessions 1 & 2]

Presenters: Regina Cory & Shawna Yeager

Targeted Group: K-8 Teachers, Special Area Teachers, Special Education Teachers

Location: CCHS Room 209

Resources: [Presentation Link](#)

Are you looking for engaging and impactful active learning strategies to incorporate in your classroom?

Are you wanting to find strategies to continue to make learning fun and exciting for your students?

Join Shawna and Regina as they discuss active learning strategies to both engage and stretch the learners in your classroom!

PLC Connections

	What do we want all students to learn and be able to do?		How do we know kids have learned it?
	How do we respond when kids don't learn it?		How will we extend the learning for kids who have already learned it?

The Art of the Mini Lesson

[Sessions 1 & 2]

Presenters: Katie Crecelius & Jennifer Wiseman

Targeted Group: All Teachers

Location: CCJHS Room 135

Resources: [Presentation Link](#)

Are you looking for new ways to kick off a new concept, skill, or lesson to capture the attention of your students?

In this session, learn a variety of mini lesson techniques and strategies to help kickstart a new topic. Whether it be music, movies, books, images, or a plethora of other interactive activities, leave today's session with something ready to try tomorrow!

PLC Connections

	What do we want all students to learn and be able to do?		How do we know kids have learned it?
	How do we respond when kids don't learn it?		How will we extend the learning for kids who have already learned it?

Setting the Bar: High Expectations for All

[Session 1]

Presenters: Susie Eastridge & Hope Ida

Targeted Group: K-12 Teachers, Special Education Teachers

Location: CCHS Room 213

Resources: [Presentation Link](#)

Do you know you want to raise the expectations of your students and help your students become more independent learners and more complex critical thinkers?

Do you want your students to persevere and build a classroom culture that we just keep trying because all students can learn?

Join this session as Hope and Susie explore how to further develop this culture in your classroom and strategies to build the stamina needed to meet those high expectations.

PLC Connections

	What do we want all students to learn and be able to do?		How do we know kids have learned it?
	How do we respond when kids don't learn it?		How will we extend the learning for kids who have already learned it?

"I'm done. What now?" Project-Based Learning in the Classroom

[Session 1]

Presenters: Karen Bruce & Kacie Withers

Targeted Group: All K-12 Teachers

Location: CCHS Room 258

Resources: [Presentation Link](#)

Are you struggling with that 4th question of the PLC model?

Do you know you need to challenge those high flyers more but planning seems overwhelming?

Try incorporating a PBL experience where students can work independently to apply the skills and knowledge they already know to a more complex problem or project. This allows the teacher to challenge those learners with a more large-scale task that doesn't require daily planning. Leave this session with information about where to find pre-made PBLs as well as the basic outline of creating your own.

PLC Connections

	What do we want all students to learn and be able to do?		How do we know kids have learned it?
	How do we respond when kids don't learn it?		How will we extend the learning for kids who have already learned it?

Total Communication in the Essential Skills Classroom: Vertical Roundtable

[Session 1]

Presenters: Jessican Conrad from PATINS

Targeted Group: All Essential Skills Teachers

Location: Virtual (via Zoom - [click here to access](#))

Resources: N/A

THIS IS A VIRTUAL SESSION. As such, teachers attending will want to find a quiet place to join the virtual meeting. Some suggestions include CCHS RMS 201, 204, 206, and 217. Teachers are encouraged to bring headphones for this session.

	How do we respond when kids don't learn it?		How will we extend the learning for kids who have already learned it?

Unlocking the Impact of Instructional Assistants in Your Classroom

[Sessions 2 & 3]

-  Presenters: Regan Baird, Cortnai Boone, & Jerry Timberlake
-  Targeted Group: K-12 Teachers, Special Area Teachers, Special Education Teachers, Administrators
-  Location: CCHS Room 219
-  Resources: [Presentation Link](#)

Do you have instructional assistants that come into your classroom to work with students?

Do you wonder how you could best use those instructional assistants to meet the varied needs of the learners in your classroom?

Do you need support in figuring out what the instructional assistants can do that directly links to student success?

If so, join this session as we explore specific ideas for incorporating the instructional assistants into your classroom and specific ideas on what they can do to help support student learning.

PLC Connections

IEPs for 1000, Alex [Session 2]

Presenters: Rochelle Bates & Ric Vaughan

Targeted Group: Special Education Teachers, K-12 Teachers, Administrators

Location: CCHS Room 213

Resources: N/A

Do you know and understand your students’ IEPs?

Join Ric and Rochelle as you play your way through learning about components and expectations of the IEP.

PLC Connections

	What do we want all students to learn and be able to do?		How do we know kids have learned it?
	How do we respond when kids don’t learn it?		How will we extend the learning for kids who have already learned it?

Using Boddle for Math Stations [Session 2]

Presenter: Mark Carl

Targeted Group: K-5 Teachers

Location: CCHS Room 201

Resources: [Presentation Link](#) | [Boddle Website](#)

Do you work for hours getting station work ready each week?

Would you like to learn about a tech tool that might help ease your planning AND benefit student learning?

We have great access to technology in our classrooms. Come explore Boddle and learn how it can be used to create math stations that allow students to practice and hone their math skills in a fun and engaging way.
