 - If the song has a tempo change: \$2.00 USD.
 - **All the prices listed above are for the standard duration of a song (3:30 to 4:00 minutes or less), for every minute additional there will be a charge of \$2.50 USD.***

**Sometimes there can be harmonies that are just the voice one octave up or down as well as small parts that simply emphasize the main voice, in those cases, the price per additional track might cost less or could take it as only one track depending on the amount of harmonies.*

**If the extra part has only instruments the charge won't apply, unless you want me to add vocal arrangements. If the song lasts less than the standard, I might consider a discount depending on the lyrics amount.*

- Mixed cover (Full mix with all the tracks and exported in 16-bit WAV format): \$15.00 USD.
