PROCESS

- Please fill out the form if you are interested in commissioning me and I will get back to you ASAP <3
- Payment is 50% up front at the time the invoice is sent; non-refundable after the sketch is agreed upon and given the go ahead to continue. The remaining 50% is needed after completion of the piece, another invoice will be sent.
- Commissions are all done via Paypal Invoice at this time (may broaden if there is interest in other companies/websites and it is possible for me to open an account).
- If I can't get to your commission within a month I will let you know and refund you the up front payment if I have not started it and took on your commission. You may inquire sooner about the situation and standing of your commission.
- Once I start the commission I will sketch out whatever it is, once the sketch is complete I will send you a screenshot and get your approval to continue.
 - If there is a chance you are not happy with something in the piece I will give you 3 free small revisions (expression changes, minor clothing changes, fixes on mistakes).
 - If we still have differences that can't be solved I will refund you and we can part ways.
- After approval I will go about finishing your piece. I may still give you watermarked WIP to see if the coloring process is okay.
