

SERVICE-LEARNING HOURS LOG

Name: _____

Semester Term: _____

Course (if applicable): _____

- This log is simply a tool to help you keep track of your hours with specific community partners throughout a given semester. This log will **not** be used in Eagle Service Network.
- For service-learning hours to count toward your graduation requirement, you will need to accurately complete the process in Eagle Service Network (as shown [here](#)).
*Note: You should enter your community partner into Eagle Service Network for approval **before** you complete any service-learning experiences with that partner. You will then go back and enter the number of hours you served with them at the end of the experience that semester.*
- When recording in [Eagle Service Network](#), you should make an entry for the total number of hours for each community partner for each semester. For example, if you served with two community partners, you would make two entries in Eagle Service Network – one entry for each community partner.
- Please note the totals of this log should match the hours you track in [Eagle Service Network](#).
