

Design title: *Little Dude's First Christmas - ornament*

Designer name: *Bloom And Anchor*

So many options with this ornament!

If cut from maple only:

1. Once cut, you can glue cut pieces together
2. Cut and engrave the small piece (for Baby's name) from cherry or walnut
3. You paint the top 'frame' layer of the ornament with acrylic markers to make it stand out.

OR

Alternatively, you can swap the top layer and cut it from cherry or walnut ply.

To personalize the small pieces with Baby's name or other stats, I chose the Roboto slab font from the font options on the dashboard in size 9 pt.

Once all pieces are cut, glue them together. Don't forget to paint Rudolph's nose red!
