

## Orange Essential Oil

The only thing bittersweet about Orange Bitter (Sicily) Essential Oil is its characteristic scent. Derived from the citrus aurantium plant in southern Italy, it has a sweet, citrus scent with warming, bitter notes similar to grapefruit. With a high d-Limonene content, it soothes and balances skin and hair. Known for cleansing and air-purifying properties, Orange Bitter Essential Oil is ideal for freshening spaces and promoting a cheerful atmosphere.

The Bitter Orange tree is an evergreen that grows up to 30 feet high (approx. 9 meters) with glossy dark green leaves and fragrant white flowers. The essential oil is produced by cold pressing the peel. The Bitter Orange is native to southern China and North-Eastern India. While the Bitter Orange and edible orange trees bear a great resemblance to each other, their leaf stalks show a noticeable difference: the Bitter Orange is much broader in the shape of a heart.

**Botanical Name:** Citrus aurantium

**Main Constituents:** d-Limonene: 90%

**Origin:** Italy / Brazil

**Plant Part:** Fruit Peel

**Processing Type:** Cold Pressed

**Color/Consistency:** A thin, yellow to brownish green liquid.

**Aromatic Description:** A top note with a medium aroma, Orange Bitter (Sicily) Essential Oil has a sweet, citrus smell like the orange peels from which it is derived, with some bitter notes similar to grapefruit.

**Blends With:** Lavender, Bergamot, Lemon, Clary Sage, Myrrh, Sandalwood, Nutmeg, Cinnamon Bark and Clove Bud.

## **BENEFITS**

Citrus Burst: Derived from the Citrus aurantium plant, Orange Bitter (Sicily) Essential Oil has a sweet, citrus scent with bitter notes akin to grapefruit that's warming and relaxing.

Airy Orange: Used in aromatherapy, Orange Bitter (Sicily) is known to boast cleansing and air-purifying properties, optimal for freshening up spaces.

Sicilian Smooth: Orange Bitter boasts an array of skin-soothing benefits – it improves the appearance of acne and promotes sun-kissed radiance.

D-limonene Delight: Orange Bitter (Sicily) Essential Oil contains 90% d-Limonene content, widely popularized for moisturizing properties that renew the healthy look of skin and hair.

## **DIRECTIONS AND USES**

- Orange Aromatic: Add a few drops of Orange Bitter (Sicily) Essential Oil to a diffuser for a purifying, energizing aroma. Combine with other citrus fragrances for enhanced aromatherapy benefits.
- Sensitive to Sun: This essential oil may contain phototoxic properties and it is suggested to avoid exposure to the sun after application to the skin. A skin test is recommended prior to use.
