

Hey Jack,

A friend gave me one of your hoodies for my birthday.

I hadn't heard of your brand before so I checked it out.

As a young hustler myself I gotta say, you have quite the catalog.

A catalog menu organizes your catalog allowing quicker and more purchases.

So I made you an example of what other high end designer brands sites consist of below.

If you like what you see, I had a few more ideas in mind that I think can increase your daily income.

What do you say?

Best regards,

JJ
