Jill Stein won the Green Party of Utah Presidential Preference Election
Preview text: Jill has 4 delegates from Utah

[Name],

Jill just won the UtahGreen Party Presidential Preference Election! On May 9, 2024, Jill received100% of the votes. She has now won 17 Green Party primaries/caucuses bringing her total delegate count to 195. Jill only needs 211 to win, so she is very close to being the Green Party nominee!

This is a historic time for the Green Party. Voters are hungry for an alternative to the parties of war and Wall Street, and we are that option. Supporting and uplifting the Green Party has always been a priority for Jill, which is why Jill has this special message for Greens around the country:

"Thank you so much for all you've done to bring us to this breakthrough moment. The need for deep change has never been more urgent, and the possibility of that change has never loomed so large - as people rise up to demand an end to endless war and genocide; justice in the workplace; an end to student debt; defense of mother earth and democracy, and political transformation to make this possible. As the vehicle for this transformation, we Greens are on track to be the only pro-worker, anti-genocide, climate action campaign on the ballot across the country. Thankfully, the bulk of ballot access work is already behind us, thanks to state Green Parties across the country. But difficult, costly battles remain and we urgently need

your help. With your support, we will complete our ballot access across the country, lead the challenge to empire and oligarchy, and demand an America and a world that works for all of us. Together we are unstoppable!" -Jill

Jill Stein 2024 has asked us to give you a ballot access update as this is the most critical need of their campaign at this moment. In Nevada, they have reached the threshold of required signatures for 2 of the 4 congressional districts, and are just 1,000 shy in the remaining 2. They fully expect to reach the threshold of 10,096 valid signatures by the May 18 deadline. In Alaska, Jill Stein 2024 gathered over 6000 signatures in the last two months, and will be submitting those this coming week. The biggest challenge is New York State, where they have to gather 90,000 valid signatures in a mere 42 day period. This is the ballot access laser focus for May- they have made a solid start but have a lot of work ahead if they are going to succeed.

Ballot access costs associated with these remaining stats are going to be steep, but necessary if voters are to have a pro-worker, anti-genocide, climate action candidate in November. Jill's fundraising goal to cover these costs is $250,000 for May so they are asking our members to chip in today. Can you contribute today to ensure Jill's people, planet, and peace campaign can continue the fight?
