Slalom Coach Pro Privacy Policy

Last updated: 16 mai 2026

1. Introduction

The purpose of this privacy policy is to inform users of the Slalom Coach Pro application, developed by Dunkirk Dynamics, about how their data is processed. We attach paramount importance to the protection of your privacy and we are committed to not collecting any sensitive personal data about you.

2. Data Collection and Use

Sensitive Personal Data

Slalom Coach Pro does not collect, store, or transmit any sensitive personal data (such as full name, precise address, or health data). Your sporting performances belong exclusively to you.

Access to Device Features

To ensure its proper functioning, the application requires the following accesses:

- **Camera and Microphone:** Used exclusively to record your video training sessions. No recording is performed in the background.
- **Storage and Gallery:** Necessary to save your videos or import files for analysis. Your personal files not related to the application are neither scanned nor analyzed.

3. Security and Retention

If you use the synchronization feature via **Firebase**, videos are stored on secure servers and are only accessible to people with your access keys (QR Code). You can permanently delete this data at any time via the "Purge" function in the application.

Payments are handled securely by Google Play and RevenueCat; we never have access to your banking information.

4. Your Rights

In accordance with the General Data Protection Regulation (GDPR), you have a right of access, rectification, and deletion of your data. As the application collects a minimum of identifiable data, most of these rights are exercised directly through the management of your local files or the deletion of your Cloud account.

5. Contact

For any questions regarding this policy, you can contact us at the following address: [taopetit80@gmail.com].
