## EDUCATOR | TRAINER

### Empowering Educators Through Capacity Building and Learning Improvement

## PROFILE SUMMARY

Over the past 6 years, I have been conducting capacity-building and learning improvement initiatives for educators, schools and organisations. I have managed some schools and served as their consultant because of my ability to build structures and systems in education. I have delivered training in some schools to support professional development, performance improvement, and best practices in teaching educators beyond the classroom. Many of these trainings are for teachers who are in less privileged Learning environments, where I gladly help out as my CSR. (corporate social responsibility) to those schools. I have led 15 schools in my Region as a Regional Educational Coordinator (CRSM), Christ Redeemer School Management, where we conducted School Evaluations with the team that visited those schools. I am passionate about changing lives through what we give

## WORK EXPERIENCE
