

Computer Lab Norms

1. Leave your Lab area in better shape than you found it - Clean up Expectations
2. Take Risks
3. Be aware of your Voice Volume
4. Be a Good Digital Citizen
5. Be Respectful
6. Have Fun
7. Ask two Friends before you raise your hand

*These norms are the voice of the entire school. Each class was able to express norms they thought were important for our school computer lab. Our list is derived from the norms that consistently were created/stated by each class. The last norm #7 was a norm that I created, a “non-negotiable”.
