

YouTube Accessibility for the Visually Impaired:

YouTube has a few accessibility features that are helpful for the visually impaired. YouTube also is compatible with screen magnification and screen readers.

YouTube Accessibility for the Visually Impaired:

- **Dark Mode. Black background with white text.**
- **Search with Your Voice. Say your search instead of typing one in.**
- **Use Siri or Google. Search and play a specific video or type of video.**

YouTube Dark Mode:

Dark mode makes the background dark and the text white. This contrast theme can be easier to see for some visually impaired individuals.

Setup dark mode on the app. Go to your profile. Then go to settings. Then go to general. Then go to appearance. Lastly, select dark theme.

Setup dark mode on Windows. Go to your profile. Then go to appearance. Lastly, select dark theme.

Search YouTube with Your Voice:

Say your search instead of typing one in.

Find the Search with Your Voice button, represented by a microphone symbol, located to the right of the search bar.

Press and release the Search with Your Voice button. You will hear a beep. You can then say your search. When you are done saying your search, press and release the microphone button. You will then hear another beep.

Use YouTube with Siri/Google:

- **Pause a video. Hey Siri/Google, pause video.**
- **Hey Siri/Google, play [song name] by [musician's name] on YouTube.**
- **For example: Hey Siri/Google, play jazz music on YouTube.**
- **Hey Siri/Google, search [your search] on YouTube.**
- **For example: Hey Siri/Google, search Be My Eyes on YouTube.**
