ABSTRAK (CAMBRIA 12)

Type abstract english here, with Cambria font 12 (1 space) italic. The contents of the abstract include the objectives, methods, results of studies / research along with recommendations. The abstract is written in one paragraph, without quotations, reference sources, and footnotes. The number of word characters in the abstract should not exceed 300 words. For manuscripts written in Indonesian, Indonesian abstracts are placed above the English abstract and vice versa. Contains 150 to 300 words.

Keywords: Keywords one, Keywords two, Keywords three, etc. (written in English; number 3-7keywords)

INTRODUCTION (CAMBRIA 12 Capital Letter)

The contents of the introduction are written in the Cambria 12 font (1.5 spaces). The introduction contains what, who, why, how, when, and where the study / research was carried out, as well as the purpose of the research. The introduction does not use subtitles, contains concise and concise explanations about the background of the research, literature studies that are supportive and relevant. The contents of the literature review include theories and scientific opinions that are relevant to the subject matter. Literature review in the form of literature review and similar research relevant to this research. The reference sources that are used as references for citing manuscripts have the latest information (maximum of the last ten years) and are sourced from the primary literature. The preliminary content emphasizes the urgency, uniqueness, objectives, and research problems that

will be further studied by the writer / researcher. The uniqueness that is meant is the difference or the uniqueness of the research being carried out with other studies that have been done before.

RESEARCH METHOD (CAMBRIA 12 CAPITAL LETTER)

The contents of the method are written with the Cambria 12 font (1.5 spaces). The method is a technique of collecting, processing and analyzing data. The contents of the method include data sources, time of data collection, population and sample, data presentation, and data analysis techniques. This method determines the sharpness of the results of data analysis in the results section and research discussion. The contents of this method are arranged in paragraph form, no more than three paragraphs.

RESULT AND DISCUSSION (CAMBRIA 12 Capital Letter)

The contents of the Findings and Discussion are written in the Cambria 12 font (1.5 spaces). Results are research findings that are presented as they are without the author's opinion. Results are not raw data, but data that has been processed and interpreted in the form of statistical data, whether in the form of tables, graphs, charts, sketches, or photographs combined with relevant theories. While the discussion is the author's argument about the research findings and their relevance to previous research. the discussion is the result of data analysis based on relevant theory. The contents of the results and discussion must answer the research problem and find the right analysis for the solution / have a positive impact on the development of science and technology in society. Writing the title of the table (Cambria 10) and the contents of the table (Cambria 10; 1 space). Table titles are written on the table and arranged sequentially in a single text, for example Table 1, Table 2, Table 3, etc. When quoting tables from other readings / references, they must be listed. Discussion of research results is directed at the realm of policy for all disciplines. Presented without subtitles, the literature review is written with the Cambria 10 font and the contents of the Cambria 10 font (1 space). the source.

Table 1. Table Titles must be Clearly Written and High-Resolution Display
