

Photography is an art - and macrophotography is no different.

So how come you are using a bulky, large and inconvenient flash diffuser to capture it

Or how come you are not using a diffuser at all!

Intra.photos have strived to find a solution to this problem, and look no further than the diffuser kit that we offer.

Using modern solutions, we have created a slick, light and easy to attach diffuser.

Gone are the days of bulky, inconvenient diffusers, making it difficult to get into tight spaces and to get the perfect shot.

In come crisp, clean photos, allowing you to hit photographic perfection.

Photography is art, so use a diffuser that compliments it
