

## Course Time Management Information

**\*\*\* DISCLAIMER:** These are estimations of how much time the average student will need to spend on homework each week. Please recognize that the time a student spends on homework will vary based upon student preparedness, student focus and effort, learning/study habits, homework environment, age, developmental stage, etc. Use these guidelines to calculate your weekly time commitments.

All times are reported in hours. Classes with — have reported 0 hours beyond class. Most are calculated on the assumption that no work was done in class.
