

SL: The potential to grow your Business **Tenfold!**

Hi (Name),

I hope this message finds you well and provides a potential vision of how I can help both your business and your customers for free.

When I was browsing your website, I noticed some opportunities to both add to and improve your website and business as a whole, additions like:

- Different types of packages within your “Couples Therapy Course”
- Social Media Ads to expand awareness of your Brand

This could really help those relationships that are right on the edge.

That's why I think more New York City couples should have access to such services.

I can start to show them the way to start repairing their relationship with some **key advice** from your coaching courses and lead them toward your Couples Therapy Sessions.

There are many ways I can do this and I would be glad to discuss further details on a Zoom call.

If this interests you, please reply to this email and we can organise a time.

Warm Regards,

Sam Hibberd
