Enduring Understandings

Students understand that...

- A good photo is created from many elements.
- Photography is an art that uses the same elements as found in art classes.
- Photography can be staged as well as candid.
- Good photography takes many more shots than you would expect.
- Good photography can be found in unusual places.

Essential Questions

- What does it take to make a good photo?
- What elements are used?
- How do you find the perfect picture?
- How many photos are necessary to get the perfect shot?
- Where do you go to get the good shot?
