

Hi Heather,

How many clients have been stolen from you till now, Heather?

Your company doesn't use paid ads to reach more audiences and this is a huge disadvantage for your business.

Most of your wedding planning competitors use paid ads and steal your clients, but the good news is that you can use their successful strategies for your own success.

Would it work for you if we had a quick 10-15 minutes call one of these days to discuss this further?

**All the best,
Mohammed,**
