In regards to security we are getting a quote for an intruder alarm for when the new security system goes in.

6 Finance

6.1 Management Reports

The AFS Management Reports for March and April were tabled.

The Finance Representative briefed the Board. She thanked the Principal and Madeleine for all their work on the audit.

She noted the weather tightness work does not directly affect us financially as the work is being carried out by the Ministry.

We haven't had any communication from the Ministry regarding pay equity and if there will be any impact on the School financially.

She spoke to the AFS reports and we are running to budget and are in line with what we would expect. Our cash position is slightly higher at \$277,000 as we received our Government grant in April and have only spent a third of it.

At present we don't have any financial commitments as a Board. Soft furnishings for the

library is a possibility but this is likely to be in 2026. Money has been set aside for any capital purchases that may be required for the library.

Discussions on the autex in Room 16 was discussed as this is not included in the weather tightness project like it was for Room 14. The Principal has received a quote for autex in Room 16 which is \$17,000. This is the right time to get new autex with the weathertightness work being carried out. The Principal agreed to check the quote with Prendos and the builders to see what they thought. The quote includes the fitting of the autex.
