

Dear Parents,

Every fall, all school councils give their superintendent a summary of their school/community's priorities in the event the school will be having a change in principal. As your school council, we are asking all parents to give us feedback regarding what you think the priorities for our school are. The following are some examples:

- true parental involvement including innovative ways to promote a diverse School Council
- support for the highly valued range of unique programs (e.g. Arts, health and wellness, student leadership, equity, special education, etc.)
- community partnerships
- communication of School Improvement Plans, school budget, school safety plan and school staffing proposals (elementary) to parents, the School Council and the school community.
- visible administrator who actively interacts with students and school community.
- support and positive change for special needs students within the school including support for implementing Individual Education Plans (IEP)

You can send us your responses or you can attend a meeting being held to discuss this (include dates, location). If you are interested in helping to prepare the final draft of the document, we encourage you to contact us. The final document will be available for all parents to see (describe location).

We appreciate your time in responding to this request and value your feedback.

Sincerely,

School Council Chair/Co-chair
