

# Privacy Policy for Progresync

**Effective Date:** April 11, 2026

**Progresync** (the "App") is committed to protecting your privacy. This Privacy Policy explains our practices regarding the collection, use, and disclosure of information through the App.

## 1. No Data Collection

**Progresync** is designed as a local-only utility.

- **Personal Data:** We do not collect, store, or transmit any personally identifiable information (PII) such as your name, email address, or phone number.
- **Photo & Video Data:** All photos, videos, and "Ghost" overlays captured or imported into the App are stored exclusively on your device's local storage. We do not have access to your camera roll or the content you create within the App.
- **Usage Data:** We do not track your behavior, location, or app usage via third-party analytics.

## 2. Local Storage and Processing

All image processing (alignment, wiping, and video rendering) is performed locally on your device using Apple's native frameworks. No data is sent to external servers or "the cloud" for processing.

## 3. Permissions

The App requests the following permissions to function:

- **Camera:** To capture new progress photos with the Ghost Overlay.
- **Photo Library:** To allow you to import historical photos and save exported comparison videos.
- **Haptics/Sensory:** To provide mechanical feedback during use.

You can manage or revoke these permissions at any time through your iOS Settings.

## 4. Third-Party Services

Progresync does not integrate with any third-party SDKs, advertising networks, or data brokers.

## 5. Data Security

Because all data remains on your physical device, the security of your data is protected by your device's own encryption and passcode settings. We recommend using standard iOS security features to keep your device secure.

## **6. Changes to This Policy**

We may update our Privacy Policy from time to time. Any changes will be reflected in a new version of the App and an updated effective date on this page.

## **7. Contact Us**

If you have any questions or suggestions about our Privacy Policy, do not hesitate to contact us at:
