

## CURRICULUM VITAE - PROF TALJA BLOKLAND

**ABOUT** A Dutch-German sociologist, currently working on how in- and exclusions in neighbourhoods reproduce urban inequalities and more generally on urban dis/trust and un/care. Talja Blokland enjoys developing concepts and doing rigorous empirical work with others. She feels comfortable in ethnography and other qualitative methods and in interpreting statistics, and enjoys writing policy reports as much as thinking theoretically. She has lived and worked in Berlin, Manchester, New York, New Haven, Rotterdam, São Paulo and New York. She is a single mother of three adult children, a teacher, writer, painter, runner, reader, and film watcher.
